Skeeter engineers have spent over fifty years fishing and riding with top anglers across the country to experience the extremes they will put a boat through to win. Developing technology and designing systems capable of withstanding this punishment is our passion. What have they taught us? There is no distance too far to trailer. There is no such thing as half-throttle. There is no water that holds a fish that is unreachable. There is no stopping their 3000 casts, and above all there is no stopping that long hard run back to the weigh-in. Brutal is the word and that’s what Skeeter stands up to year after year after year. Performing at the very edge, where mere ounces separate first and second. Conditions that can challenge any equipment. Our job as the nation’s oldest builder of performance bass fishing boats is to take away all the doubts about equipment performance and let you concentrate on your ability to catch fish. For over 50 years Skeeter designs and craftsmanship have allowed anglers to concentrate on the task at hand . . . winning!

A Skeeter owner lives to fish. The need to compete is in our blood. With every sunrise comes the exhilaration of the blast-off and that first long run of the day. With every cast comes the promise of filling our limit. And the reward is realized only when that five-pound kicker is tucked safely away in the livewell. Our competition is not with the guy in the back of the boat - it’s the water. We live to fish.

Eat. Sleep. Fish.
Fishermen who purchase a Yamaha-powered Skeeter boat and who like to fish tournaments - whether they’re a weekly get-together or part of a national circuit - the Skeeter Tour program is for you. Simply fill out a Skeeter Tour application and send it in with the warranty card on your new Skeeter boat and you automatically qualify to participate in the Skeeter Tour bonus program for three years. You then become eligible to fish in any of the more than 3,000 sanctioned Skeeter Tour, Skeeter Jackpot and Skeeter Tour Gold events nationwide.

If you win an officially sanctioned Skeeter Tour event while fishing in your qualified Skeeter Yamaha rig you can win a $1,000 bonus in addition to your tournament winnings.

SKEETER TOUR JACKPOT

Skeeter owners who win a Skeeter Tour Jackpot tournament, while fishing from their qualified Skeeter Yamaha rig earn a bonus of twice the 1st prize amount (maximum $500 bonus). Tournaments that qualify for the bonus are weekly tournaments, tournaments that have entry fees under $50 per person or have more than eight tournaments a year.

SKEETER TOUR GOLD

Skeeter, along with your local Skeeter dealer, may sponsor a select number of events in your market each year. These events will qualify for the Skeeter Tour Gold bonus. If you win a Skeeter Gold event while fishing from your qualified Skeeter Yamaha hull you can win up to an additional $3,500 above any other prizes. If a Skeeter owner doesn’t win, the highest-placing Skeeter owner that purchased his or her boat from the sponsoring dealer will receive two times the entry fee.

Officially sanctioned Skeeter Tour, Skeeter Tour Jackpot and Skeeter Tour Gold tournaments are listed and regularly updated on the Skeeter website. All tournaments and events must be approved and sanctioned by Skeeter Tour headquarters at least 30 days prior to the event to be eligible for the Skeeter Tour bonus money. See your local Skeeter dealer for complete Skeeter Tour rules and regulations. Own a Skeeter and you’re in!

SKEETER OWNERS’ TOURNAMENT

Ownership has its privileges. As an owner of a Skeeter boat, you demand the best and Skeeter is the best – setting the standard by which all other bass boats are measured. Skeeter is proud to have a loyal following of owners, and to show our appreciation, we invite you to join thousands of proud Skeeter owners at our annual Skeeter Owners’ Tournament, a day of celebrating the boat that started it all over 50 years ago – Skeeter. In addition to fishing the tournament, you’ll enjoy delicious Texas BBQ, meet members of our Pro Team and participate in the hunt for famous “Yellow Rubber Ducks.” To cap it all off, you will have the opportunity to fish for over $75,000 in cash and prizes – all because you are a part of the Skeeter family.

XTREME PERFORMANCE on the water and on the web. Skeeter knows the importance of its owners having quality boats and quality information. Visit our website where you will find updated product information, tips from our pros, the latest Skeeter Tour dates and more.

www.skeeterboats.com

Skeeter proudly resides within the Fishingworld.com fishing web community. Fishingworld.com is your one-stop source on the web for up-to-the-minute tournament and fishing industry information. Be sure to check FishingWorld.com daily for the current fishing industry news sponsored by skeeterboats.com.
Year after year, Yamaha continues to be the benchmark by which outboard excellence is measured. Proven Technology. Unique new outboard features that have won the boating industry's most prestigious innovation awards. And a reputation for uncompromising reliability and dependability. Yamaha is always pushing the standards of excellence forward and creating a paradigm that other outboards aspire to. Because you want the best outboard you can buy, and Yamaha is determined to build it for you. When you want the best, you want a Yamaha.

X-TREME PERFORMANCE Combining handling, speed and maneuverability is no easy challenge when at top-end less than 10 inches of hull makes contact with the water. However, when it all comes together it's simply breathtaking. When we say "High Performance" that's what it is. Innovative Skeeter hull designs produce the legendary Skeeter top-end lift and smooth, dry ride while providing optimal control and handling.

X-TREME CONSTRUCTION X-Treme construction provides incomparable strength and durability for unsurpassed performance. We make it a point to not only meet but exceed the needs of anglers by using only the finest materials and advanced technology.

X-TREME COMPOSITES All Skeeter boats feature composite stringers and transoms. All ZX models feature composite flooring for maximum strength and reduced weight.

X-CESS ENGINE SUPPORT SYSTEM All Skeeter ZX Series Bass Boats feature an integrated aluminum union between the stringer and transom for maximum strength and performance, making our transoms the strongest in the industry.

X-CEL TRANSOM Independent lab tests have shown Skeeter's X-Cel Transom to be the strongest on the market.
The goal of every Skeeter engineer for the last fifty years has been to continually keep in close touch with the tournament angler’s needs. Skeeter’s ZX Series has set the industry standard by combining a perfect blend of beauty, high-speed performance, maximum storage, and comfortable layouts that increase active fishing time to make every moment on the water trouble-free so you can do what you do best – fish. To a tournament angler, time is everything. Thousands of casts are made in a tournament, any one of which can produce the winning weight, every one of which is important. Total concentration is a must. Confidence in your equipment, an absolute must. The ZX Series is simply a total-performance bass boat.

The incredible hydrodynamics coupled with the revolutionary reverse draft sponson design of all Skeeter ZX Series hulls deliver rapid-fire hole shots, smooth, dry rides even in the roughest water and the ultimate high-end speed that tournament anglers need. But the ZX goes beyond just getting you there first.

R. Bow Traction Mat
B. Roomy Storage Compartments
C. Innovative Rod Storage System
D. Passenger Glove Box
E. Under-seat Cooler
F. Under-seat Storage with Retractable Utility Light

Factory-installed Pinpoint Network Cables Allow Easy Installation of Pinpoint Sonar On Bow and Console

EAT, SLEEP, FISH
The SX Performance Bass Boat Series by Skeeter truly defines a full range of five-star, well-balanced, affordable fishing platforms. Extending in size from 17 to 20 feet, they offer the best quality components available. The SX Series combines luxury, beauty and performance. All SX boats feature extended casting decks, large rod lockers, spacious storage and ergonomically designed cockpits with cutting-edge technology in electronics from Teleflex®, Zercom® and MotorGuide®. X-Treme flow livewell systems are designed to oxygen-saturate recirculating fresh water to levels three times their normal state, providing a healthy catch at weigh-in even on the hottest days. And like all Skeeter boats, the SX is backed by Yamaha’s technologically advanced power and performance, truly an unbeatable combination.

From tournament pros to weekend anglers, Skeeter offers affordability, durability, and reliability. Don’t settle for anything less.

A. Roomy Rod Boxes with Gas-Assisted Lifts
B. Passenger Glove Box
C. 3-Across Seating with Hidden Storage
D. Storage Compartments
A friend of mine in the bass club once said he didn't mind being passed on the take-off. I said 'Well, I really wouldn't know what that feels like.' Skeeter and Yamaha an unbeatable combination.

Page twenty-five
Northern fishing for walleye, pike, lake trout, or salmon can be some of the most rewarding and most demanding fishing in the country. It requires specific layouts to match the unique needs encountered by the angler in search of these species. That’s why at Skeeter we went the extra step to design our Big Water Series alongside the top Walleye Pros in the country such as Jim Bell. Performance designs and built-in fish finder, Skeeter big water hull designs provide smooth, fast and dry rides. The Big Water Series combines X-TREME and X-CEL composite construction in floors, stringers and transoms for unparalleled durability and exceptional performance year after year.

- Rooomy Front Storage Compartments and Unique In-Floor Rod Storage
- Spacious Interior
- Pinpoint Network Cables Allow Easy Installation of Up to 3 Pinpoint Sonar Displays

The only thing predictable about Northern lake weather is the unpredictability. It can turn brutal in minutes. As a professional angler and my equipment to the edge. The true advantage of top performance fishing is a great performance platform to fish from. And the new Skeeter ZX2050 is that platform.

- A. Bow Panel with Troll Receptacle & Trim Switch
- B. Rooomy Storage
- C. In-Floor Rod Storage
- D. Built-in Cooler
- E. Side Rod Storage & Shelf
- F. Fixed Drivers Seat with Slider Chair
- G. 2 Stern Livewells
- Pre-wired Sonar Locations

SKEETER®

New for 2001. The Skeeter SL 190 offers an exciting new dimension in ski performance and fishability! Totally redesigned and beautifully crafted, the SL190 incorporates the popular features of our legendary bass boats, plus the fun of the top-of-the-line ski boats. From great storage for rods and skis to driver and passenger bucket seats to Skeeter’s one-of-a-kind aerodynamic profile for fuel-efficient performance and a more stable ride, you’re set and ready to go—just name your game.
