INTRODUCING THE SKEETER FX™ SERIES.
Designed for maximum performance with the new YAMAHA VMAX® SHO™.
We start with YOU.

There's only one judge — the boater behind the wheel. So why both sacrifice and settle for the status quo? Skeeter was recognized for its commitment to customer satisfaction for fiberglass boats. In a poll of the 2005 Marine Industry CSI Awards, the program received exceptional marks from the customer satisfaction ratings of 98% or higher.

LIMITED LIFETIME WARRANTY

- Skeeter offers the original retail purchaser a Structural Warranty that covers any major structural defects in the material or workmanship for the duration of the ownership.
- Under the most circumstances, the Structural Warranty may also be transferred to the second owner for a full 30 years from the first retail purchase date.
- Skeeter also offers a Component Warranty to the first retail purchaser, when certain factory installed parts are covered for up to three years from the date of purchase. The Component Warranty may not be transferred to a second owner and is subject to limitations outlined in the 2010 Skeeter Fiberglass Limited Warranty.

SKEETER PRODUCTS, INC., ONE SKEETER ROAD, KILGORE, TX 75666
(903) 904-0541 — (800) SKEETER
skeeterboats.com

FOLLOWERS NEVER GET THEIR FIRST.

Even in a world of innovation, Skeeter stands alone. We begin with unparalleled ideas, often in response to feedback from our pros, dealers and customers. Then we subject those ideas to constant testing and rigorous manufacturing standards, so that each boat we build delivers high performance, peace of mind and a standout resale value. This is why every Skeeter is engineered "like no other."

"SKEETER" WAS THE NAME ON THE FIRST:

- Bass boat
- U.S. Coast Guard approved bass boat
- V-hull pod design
- Sponsor hull capability concept
- Protective protective bow area
- Aluminum alloy gunnel
- Completely closed transom with no splashed
- Full length rod box
- Bass boat rated for a 150 HP engine
- Rod Storage system

skeeterboats.com
WIN UP TO $2,000 FOR EACH ELIGIBLE TOURNAMENT.

Real Money anglers who win the first place Skeeter Real Money Pro (R) Prize Points at eligible events are eligible to receive up to $2,000.00 cash for each eligible tournament. See the Real Money Rules for complete details, terms and conditions, or to see the most current list of eligible tournaments. Skeeter congratulates all participating Skeeter Elite Series participants and says thank you for participating in a world-class, unmatched fishing event.

THE PERFECT PARTNERSHIP

Skeeter and Bass Pro Shops. Bass Pro Shops is the only retailer that offers Skeeter, and Skeeter Bass Pro Shops is the only retailer that offers Skeeter. Skeeter is the official boat of both Bass Pro Shops and Bassmaster Elite Series. Skeeter is the official boat of all Bass Pro Shops events and Skeeter Bass Pro Shops is the official retailer of all Skeeter products. Skeeter and Bass Master Studios, LLC agree to the following terms and conditions.

The rules for eligibility and prize money are as follows:

1. Eligibility:
   - Participants must be at least 18 years old and have a valid driver’s license.
   - Participants must have a Skeeter boat.
   - Participants must be a member of the Skeeter Bass Pro Shops family.

2. Prize Money:
   - Participants will receive $2,000.00 for each eligible tournament.
   - Prize money is paid out in cash.

3. Prizes:
   - Participants receive a Skeeter boat.
   - Participants receive a Skeeter fishing rod.
   - Participants receive a Skeeter fishing tackle.

4. How to Enter:
   - Participants can enter by completing the registration form.
   - Participants must provide their name, address, and contact information.

5. Entry Deadline:
   - Participants must enter before the entry deadline.
   - The entry deadline is 11:59 PM EST.

6. Rules:
   - Participants must follow all rules and regulations.
   - Participants must maintain a clean and safe boating environment.

7. Limitations:
   - Participants cannot enter more than once per tournament.
   - Participants cannot enter if they are already eligible.

8. Winners:
   - Winners are chosen at random.
   - Winners are notified by phone and email.

9. Prize Claims:
   - Prizes are claimed by mail.
   - Prizes are mailed within 4-6 weeks.

10. Additional Terms:
    - Participants must comply with all local, state, and federal laws.
    - Participants must be at least 18 years old.
    - Participants must have a valid driver’s license.

For complete details, terms and conditions, or to see the most current list of eligible tournaments, please visit our website.

skeeterboats.com
**We start with CONTROL**

Sharp boats. Smooth turns.

Whether your passion is fishing, water sports or just getting there safely and comfortably, Skeeter performance boats are built for that. From the smooth ride and sporty handling of our Center Console series to the quiet, comfortable ride of our Tri-Toy and Dual Console models, Skeeter is the one you can always count on for a reliable and enjoyable boating experience.

**ENGINEERED LIKE NO OTHER.**

Here’s how we do it:

**NO OTHER**

The perfect power for your boat.

For every Skeeter, we design a Yamaha® VMAX® SHO™ engine. We engineer the right size and horsepower to deliver power and performance to meet the needs of each Skeeter model and provide consistent, reliable power throughout your boating experience. No other engine is more perfectly matched to your Skeeter boat.

**Features:**
- **Smooth & Dry Ride:** Delivering a smooth ride with minimal wake, providing a comfortable and enjoyable boating experience.
- **Cruise & Drive Control:** Offering precise, responsive control, allowing for effortless maneuvering and enhanced safety.
- **Quick Hole Shot:** Ensuring a swift and powerful start, perfect for launching quickly into the water.
- **NO BACKWASH:** Ensuring a clean and uninterrupted wake, providing a better boating experience for everyone.
- **EXTREMELY STABLE:** Providing stability and control, even in challenging conditions.

Find your nearest Yamaha dealer and experience the perfect power for your Skeeter boat. For more information, visit yamahaoutboards.com.

**THE NOVA™ 90 MANEUVERABILITY TEST**

This is the most advanced, safe, and effective way to determine how a boat handles and performs. This test simply takes the existing weight and then slowly turns the steering wheel. As the test is run, the data is recorded and analyzed for its ability to move without a big摆 or roll. This way we can determine the stability of the boat, and how well it handles various conditions.

**NO FAIL/DRIVER MAINTAIN CONTROL AFTER 90° TURN**

**FAIL/DRIVER LOSES CONTROL AFTER 90° TURN**

**WARNING**

Do not attempt to do this test on a boat without first determining it is capable of completing the test. Always wear a life jacket and follow proper boating safety procedures.

All Skeeter boats are certified by the National Marine Manufacturers Association and meet all United States Coast Guard and American Boat and Yacht Council requirements.

skeeterboats.com
We start with DESIGN

Manufacturing boats that fly.

Many of our current boat building techniques came directly from the early investments Skeeter made in aerospace engineering and technology. Our design team made us the first boat manufacturer to use space-age materials, with Kevlar and fibreglass composite construction, and aerospace engineers have continued to influence our concepts, materials and manufacturing processes to this day. Maybe that’s why our boats seem to fly across the water.

PERFORMANCE HULL DESIGN

- **Steering**: Angled cuts along the sides provide lift and act as a rudder, deflecting water as it flows along the side.
- **Primary Reverse Chine**: These concave sections are built to deflect specific loads to deliver control and accuracy, even in the roughest conditions.
- **Secondary Reverse Chine**: Adding another layer, the secondary reverse江ine deflects any additional water passing over the panel, offering further lift.
- **Running Surface**: The aggressive angle of this hull combines the control and lift and the 20% deeper skeg gives Skeeter the smoothest, driest ride in the industry.
- **Coaster Hull**: The heart of the running surface where width, height and weight are precisely engineered to deliver the best combination of speed, handling and boat carrying capacity.

CONSTANT CURVATURE PRINCIPLE

A distinctive design feature of the Skeeter hull is the constant curvature of the bow from bow to stern. With the smoothest hull on the market, the curvature of the concave section, you get a low friction area that allows the boat to “plow” through, increasing speed and enhancing stability. To achieve this, a new loop designed to direct the hull at an angle, increased strength and stability prevent damage caused by waves or torque impact.

- **Turning Chines**: Those important performance features built into the hull. The hull will experience turning with high-speed turns to keep you on course.
- **Water Flow Relief (Outlet)**: Allows water flowing under the hull to quickly exit. It also keeps the propeller with a minimal amount of hull, remains in the water, reducing drag.
- **Skeg**: Skeg using flow from the water to guide the sponsors and cut through the water. It is designed to maintain the boat’s direction to stay wide open without making the boat.

20 MODELS, ONE PASSION ENGINEERING

- **Aluminous Dual Cylindrical System**: Aluminum structure provides superior support and strength, with fins that close tightly when using the outboard.
- **Composite One Piece**: The hull of the Skeeter RS is made from one solid piece. It is wrapped in a micro-coring of Dacron, halving between layers of fiberglass.
- **Aluminous Torque Transfer Transom**: Skeeter’s system brings legs up to the hull and extends the skeg, allowing a smooth release from the tunnel. The transom and strake is determined full stern.

SIX-CYL COMBINATION - FOR THE RAPID REACHING MULL.

Three of our six-cylinder engines offer fast performance. Includes various combinations, with different outstanding strength and durability.

- **A Finish That Lasts**: Our polyurethane finish is an exclusive, "Dry" system, bringing the look behind the industrial fill-a-torress, without the usual refinishing cycle. This makes our hulls last extra tough. Several years without visible damage. All the boat is built for the industry against weathering and durability.
WE INVENTED THE GAME.
AND WE JUST CHANGED IT.

THE ULTIMATE COMBINATION OF SKIBERTER PERFORMANCE
AND YAMAHA MUSCLE. Our new FX Series is the first line ever
to be designed for a specific engine — the new Yamaha SHO® SHO 250.

The result? A top-of-the-line game changer. A blend of performance,
efficiency and reliability the boating world has never seen — until now.
The revolutionary hull design delivers a best-in-class hole shot and higher
top-end speeds. Plus, we’ve included our DDFS™ (Digital Multi-Functional System) technology standard. Our new FX Series is so advanced.
It took two of the best names in the business to create it.
ONE FIERCE FISH FINDER

COME TOURNAMENT TIME, OUR I-CLASS BOATS ARE ITCHING FOR A FIGHT.

They’re built for serious fishing. With the speed and agility to get you exactly where you need to be. All this powerful, seamless, smooth and super-efficient performance from Skeeter’s decades of legendary fishing style and technology. Plus an aggressive, intimidating design that says “I’ll beat ‘em all.”

SKEETER

i-CLASS SERIES

22i | 21i | 20i
Want even more power? With Skeeter’s exclusive PowerTilt-Trac technology, the 360 HP V6 gets you moving in a hurry. And once you reach top speed, you may need to hold into more than your hat. In this sport, you have to make a fast getaway. And that’s where Skeeter and Yamaha are shining.

21i facade specifications:
- Length on trailer: 27’4”
- Length as trailer: 20’7”
- Width on trailer: 90”
- Hull length: 23’
- Beam: 8’
- Engine draft height: 30”
- Max. weight on trailer: 78’
- Transom depth: 17”
- Draft: 2’
- Dry weight: 4,990 lbs
- Max. HP: 300

21i Capacities:
- Max. weight: 4,400 lbs
- Max. passengers: 7,500 lbs
- Fuel capacity: 50 gallons

Additional i-Class info:
- Feature photos: pg. 18-19
- Trailer Specification: 5-77
- Options: pg. 80
- Color selection: pg. 71-72

21i Exterior/interior:
- FireHawk Red hull with Black Wheel well stripe and Black Shroud (c) Black Wheel well pillar
- Black gel-coated surface
- FireHawk Red dock with Black Wheel deck chair and wheel deck pillar
- Midnight Red console
- Medium Neutral upholstery with Cherry insert and Mocha Mtex carpet
- Yamaha VF225 engine

21i Trailer (on show):
- Black Wheel with Wheel hub pillows
- Nona Mtex carpet, and Alumastar red fenders
PERFECT FOR YOU, YOUR PARTNER AND LOTS OF FISH.

WHEN FISHING IS AS MUCH ABOUT CONVERSATION AS IT IS ABOUT COMPETITION, you need a boat built for you and a friend — the Skeeter ZX Series. It’s a perfect blend of luxury and affordability, with the power and performance to get you on the water and the cottage space to spend a day on the lake from dawn to dusk.

Your caps take only a few hours on the water.
ZX200 Specifications:

Length on trailer .......................... 19’10”
Overall length .................................. 21’10”
Width on trailer .......................... 9’9”
Draft ................................................. 2’1”
Beam ................................................. 9’
Engine shaft length .......................... 2’
Max. height on trailer .......................... 10’
Exterior depth .................................. 18’
Draught ................................................. 1’
Dry weight ................................... 1,610 lbs.

 ZX200 Options:

- Premium sound system
- Upgraded upholstery
- Custom powder-coated steering wheel
- Additional storage under the seats

ZX200 Additional Features:

- Dual batteries: Battery consoles keep the driver connected and let passengers enjoy a comfortable ride. A spacious ride, too, with additional storage and includes.
- Passenger rail rudder: Your passenger can sit comfortably, even when you're rocking in the waves. The rail is designed to provide support and a secure platform, no matter how rough the water gets.

BOATS THAT DO IT ALL.
JUST LIKE YOU.

THE SL SERIES WAS DESIGNED WITH THE WEEKEND IN MIND.

Want to fish on Saturday? These boats are packed with fishing features — a transom, casting decks and even an optional removable trailing motor. What about family fun on Sunday? The SL series is perfect for skiing, wakeboarding and sunbathing. Or are they fishing boats by any other name?

The answer is yes.
SL SERIES

SL210 | SL190 | SL1900 | SL1800

A. Optional Trolling Motor: Optional trolling motor is equipped with a removable mount for maximum versatility.

B. Bow seating: Removable backrest cushions snap in and out easily to provide part or full bow seating, making the boat versatile for various users.

C. Bow storage: Just snap out the deck pad cushions for added storage of your beach towel, cooler, or anything else you may need to store.

D. Rod locker: Located in the floor, it holds multiple rods to help keep you in action.

E. Ergonomically designed driver’s console: Full instrumentation, low-profile windshield, and tilt steering keep you in control.

F. Passenger console: Features glove box and AM/FM stereo with CD player and flush adapter.

G. Sport console: Unique to this model, the model designer accentuates the sport styling of Skeeter’s SL series.

H. Ski locker: Conveniently keeps skis, waterboards, and accessories of all shapes and sizes when not in storage.

I. AM/FM stereo with CD player: Keeps your tunes cranking even when you’re on the water with flush adapter that charges your iPod while in use.

J. Flip-up seating: Additional seating conveniently slips down and摞s into the cockpit when not in use.

K. Purely sailing and stress-free skiylan: Comfortable, safe, and easy to use, Skeeter’s skiylan with convenient storage and clicker assembly. Removable skiylan is designed to give skiers the elevated ride they need for today’s performance boats.

L. Tie-downs: Full-length with T-4 eye holes and quick-release bow to help ensure you can keep your bow lines tight.

M. Boarding ladder: Stainless steel boarding ladder ensures easy access to and from the water with hip-resistant steps and non-skid top deck. 
SL210 Specifications:

- Length on trailer: 19' 5"
- Length on trailer w/ swing away tongue: 21' 7½"
- Width on trailer: 8' 8½"
- Boat length: 17' 8½"
- Beam: 94"
- Engine shaft length: 20"
- Max. height on trailer: 7½"
- Interior depth: 23"
- Draft: 2½"
- Dry weight: 2,400 lbs.
- Max. horsepower: 250 HP

SL210 Capacities:

- Max. weight: 1,150 lbs.
- Max. passengers: 6
- Fuel capacity: 40 gallons

IN BIG WATER, THIS BOAT’S GOT YOUR BACK.

WHEN YOU FISH FOR WALLEYES, SMALLMOUTH OR LAKE TROUT, you do it on their terms and their turf. Our Deep-V boats will get you out there, there in rough weather. The rock-solid transom and stringer system is built to take a beating, and the windshied hull covers big water. If your position for nothing knows no limits, Skeeter gives you a boat to match.

COLOR

SELECTION GUIDE

It has a style all your own.

You start it on the hull. Does or gel? Should it match your trim or complement it? What about the deck's theme? Same as the hull or different? Bring in the stripes. What about the all-over DSF theme? It would be easy to decide. If you decide to make it look like all you put together.

Now you can with Skeeter’s interactive boat building software the only limit is your imagination. Make your selections. Print out a color matching thing it up, get your handy work is and do it again. Get the idea? Select THE MY SKEETER™ at skeeterboats.com. It’s fast and easy to create a style all your own.

PERFORMANCE FLAKES

A synthetic playground that really makes you through the clear gel coat and provides a unique lasting, smooth finish.

- PERFORMANCE UPHOLSTERY

Heavyweight, water-resistant, or flame retardant, as well as marine and UV protected.

- PERFORMANCE CARPET

Buddle System that will not be stained to prevent fade and degradation.

BUILD MY SKEETER

Visit skeeterboats.com today and create the boat of your dreams.
