WIN UP TO $3,000 FOR EACH ELIGIBLE TOURNAMENT.

Win the most while fishing the best with the 2013 Skeeter Real Money Program. The payouts at great rates continue growing and this year’s prize could be even higher. Just another reason why the leader in tournament fishing, Register for the Real Money Tour. Real Money Program dates are from January 1 through December 31, 2013.

1. BUY a Skeeter boat. Purchase any new or used Skeeter boat powered by a Yamaha engine from a dealer or private party.
2. REGISTER. Visit your local, authorized Skeeter dealer to obtain a registration form, or download it at skeeterboats.com. You must register with your eligible Skeeter boat before your next tournament. After you are registered, please contact Skeeter to change your brand number to your registration number (800-939-5367). A $25 registration fee per angler is included in membership cost. As an Official Skeeter boat, Max Powerboat Total, Skeeter will dock, weigh, patch.
3. FISH & WIN. In a contingency-specified paying event. A list of sanctioned tournaments and payout policies for our dealers are available at Official Skeeter dealers as complete in-tournament policy and updated periodically on our Web site. Schedules subject to change with notice.
4. GET PAID. Payments will be made on Skeeter locations, and approved. Official tournament results from any and all of these events have been verified. To be eligible for incentives, you must register prior to participating in a contingency-specified paying event for complete details, terms and conditions, or to see the most current list and schedule of sanctioned tournaments. See your local authorized Skeeter dealer at our website.

THE PERFECT ASSOCIATION

BASS and SKEETEK

Bass is the fishing. Skeeter is the boat. Bass is the authority on fishing. So it’s only natural that Skeeter partners with the Bass Anglers Sportsman Society as its official boat sponsor. We’re out there with you on the tournament trail, taking you to the fish and ready to handle every aspect. Get schooled through our Real Money program. You won't find a better fishing buddy.

BASSMASTER CLASSIC

BASSMASTER ELITE SERIES

BASSMASTER OPEN Ses

BASSMASTER COLLEGE SERIES

BASSMASTER JUNIOR WORLD

FROM GRASSROOTS TO THE PROS, SKEETER IS WITH YOU ALL THE WAY.

With over half a million riders, BASS oversees the prestigious Bassmaster Elite Series tournament trail. Skeeter also sponsors the grassroots network that sanctions more than 3,000 events nationally in conjunction with Van Zandt Outdoors as the presenting sponsor for the BASS Federation Nation Divisionals and the BASS Federation Nation Championship.
Skeeter performance starts with Skeeter engineering. We've invented a world-class team of designers who love fishing as much as physics and who hate to flip out ways to make Skeeter boats faster, smoother and better than any other boat on the market. Our tradition of engineering excellence began with the world's first fast-boat. We've since added innovations like the V-hull and the Skeeter System. Skeeters are ENGINEERED LIKE NO OTHER™—there are never really good enough. Skeeter performance starts with Skeeter engineering. We've invented a world-class team of designers who love fishing as much as physics and who hate to flip out ways to make Skeeter boats faster, smoother and better than any other boat on the market. Our tradition of engineering excellence began with the world's first fast-boat. We've since added innovations like the V-hull and the Skeeter System. **NO OTHER™**

Skeeter performance starts with Skeeter engineering. We've invented a world-class team of designers who love fishing as much as physics and who hate to flip out ways to make Skeeter boats faster, smoother and better than any other boat on the market. Our tradition of engineering excellence began with the world's first fast-boat. We've since added innovations like the V-hull and the Skeeter System. Skeeters are ENGINEERED LIKE NO OTHER™—there are never really good enough.

**THE PERFECT POWER FOR YOUR BOAT.**

With a Yamaha outboard behind you, there's nothing but good times ahead of you. Yamaha is as synonymous with reliability as you are with the water. Every last detail is engineered to give you advanced outboard technology you can count on. Every weekend. Every year.

**THE YAMAHA V MAX SHO™**

**THE FUTURE OF BOAT POWER.**

It's the boat of the future—A V Yamaha high-performance outboard for bass boats.

And it's breathtakingly competitive two-stroke with:

- **40 HP to 135 HP**
- **4-stroke, 4-liter displacement and power-to-throttle ratio**
- **Designs that surpass every competitor's V-engine design**

That's just for starters. It also delivers clear-air clean power and a level of fuel efficiency that's explored in no uncertain terms on the tournament circuit.

**A DISTINCTIVE HARMONY**

**WE SELL EXCLUSIVELY THROUGH OUR DEALERS.**

The perfect power for your boat. For your dealer and Yamaha dealership information, visit us at YamahaMotorSports.com. For details on Yamaha's Dealer Network, visit YamahaBoats.com/Find-A-Dealer. For details on Yamaha's Dealer Network, visit YamahaBoats.com/Find-A-Dealer.
PERFORMANCE HULL DESIGN

- STRAKES: Angled cuts along the chine provide lift and act as a sail, deflecting water as it travels beneath the hull and eliminating the need for a keel.
- PRIMARY REVERSE CHINES: These concave sections deliver stability and comfort, reducing the effects of waves and improving the ride.
- SECONDARY REVERSE CHINES: Adding another layer, the secondary reverse chine deflects any additional water passing over the trailing edge.
- RUNNING SURFACE: The aggressive area of the hull provides maximum lift and minimizes wake, allowing for greater speed and efficiency.
- CENTER PAD: The center of the running surface where width, depth, and length are precisely engineered to deliver the best combination in speed handling and broad play capability.

CONSISTENT COUNTERPOWER PRINCIPLE

- A revolutionary design feature of the Skater hull is the counter rotation of the bow from bow to stern. This allows the entire hull to be righting and ensures the flat running surface, which provides the bow with stability.

TURNING CHINES: These important performance features enable the boat to stay on course during high-speed turns to keep your speed up.

WATER FLUSH FOAM (SIGHTMARK)

- Allows water flushing under the boat, which adds stability and covers the main amount of hull volume when flushing before or after.

SPONSORS: Walsh family's sponsors are listed next to the sponsors' logos.

ASSIMILATING DECK IDEA SYSTEM: Our skaters have a specific piece of foam on the back of the boat that acts as a step to help you from the water into the boat. This foam is also patented by us.

INNOVATION

- MORE YOU STUDY IT, THE SMARTER IT IS: A Reinforced STRAKES; Our new design features an extruded element that runs from the bow to the stern, providing added stability and reducing the risk of capsizing. The deck is also more comfortable for passengers.
- EXCEL COMPOSITION FOR THE INDUSTRY’S STRAIGHT HULL: The Skater design and materials are made to withstand the elements, providing a smooth and comfortable ride.
- AT A PRICE THAT LASTS: Our Skaters are constructed from durable and lightweight materials, ensuring that they will last for years to come.

REVOLUTIONARY TRANSOM AND STRINGER

- It is called the Skater’s Transom Trimmer and Stringer System. This patented revolutionary system, exclusive to Skater, is constructed of high-tech aircraft-grade aluminum alloy bolted through full-stringers, EX-CEL composite transom. It is designed to transfer and distribute the tremendous energy and stress developed by the thrust of today's high-performance vessels to the bottom structure of the hull. This design allows the boat to bend and flex, while the stringers remain straight, which improves the boat's performance.

- The trimmers are made of high-tech aircraft-grade aluminum alloy bolted through full-stringers, EX-CEL composite transom. It is designed to transfer and distribute the tremendous energy and stress developed by the thrust of today's high-performance vessels to the bottom structure of the hull. This design allows the boat to bend and flex, while the stringers remain straight, which improves the boat's performance.

- The stringers are made of high-tech aircraft-grade aluminum alloy bolted through full-stringers, EX-CEL composite transom. It is designed to transfer and distribute the tremendous energy and stress developed by the thrust of today's high-performance vessels to the bottom structure of the hull. This design allows the boat to bend and flex, while the stringers remain straight, which improves the boat's performance.

- The engineers use a specialized software to ensure that the hull is designed for maximum performance and efficiency.
POWER AND PERFORMANCE

are in its bloodlines.

Skeeter and Yamaha have raised one very fast boy. We designed the FX Series specifically to be paired with Yamaha’s Supercharged VMAX SHO engine, and it’s a match made in performance heaven. Amazing truly is what, expected tops and speed. Faster. And, Yamaha Fortran. Two advanced technology, generous storage and all the extras you’d expect from bass boat’s best pedigree.
FX21

SPECIFICATIONS:
- Length: 18 ft 6 in
- Beam: 91 in
- Maximum length: 22 ft 6 in
- Weight: 1,500 lbs
- Prowess: 250 hp
- Max RPM: 7500
- Top Speed: 65 mph

CAPACITIES:
- Mid-box: 1,500 lbs
- Mid-pancake: 400 lbs
- Full penguin: 650 lbs

In this case, looks are not deceiving.

FX Performance Hull
Skeeter’s proprietary hull design was specifically designed to enhance performance and handling. The result is a hull that requires less power to maintain speed, making it easier to control and maneuver.

The skeeter FX21 and Skeeter FX21 Pro share many of the same performance characteristics. The hull design includes a deep-V for improved stability and a wide track for better handling.

For more information, visit SkeeterFX.com

SkeeterFX.com
GETS TO THE FISH FAST. Gets the fish in the boat even faster.

FX Performance Hull
The FX hull design combines deeper transom depth with upswept transom and lower-rise transom to allow for proper prop performance and handling during aggressive turning and high-speed shifts without sacrificing top-end speeds.

The 11-ply teak of the reinforced gunwales adds to the boat’s stylish look and improves the boat’s handling and appearance. The built-in seat is designed for comfort and with the console, it’s the perfect place for you to spend your day out on the water.

For boat sales or service, see page 17.
When it comes to performance, this beauty is a beast.

There’s top of the line, and then there’s the i-CLASS line.
The i-CLASS has it all — agility, responsiveness and incredible speed that leave the competition in the dust.
Technology you’d take pride in the cockpit of a fighter jet.
That’s what happens when you pour the envelope into a whole new category. In fact, there’s only one thing this boat doesn’t have — competition.

i-CLASS Series

22i | 21i | 20i
Recessed grips, thick molded plush and how seats are made your time on the front deck comfortable and efficient.

Skeeter Boats
The fastest way from “GAME ON” TO “GAME OVER”

Beat the competition to the fish, track down the fish there, too. The ZX series is the very definition of “endurance boat.” It’s got the muscle and proven technology to keep you running and in the game long after the others have given up. COMBINE INSANE PERFORMANCE AND ENDURANCE WITH COMFORT AND VALUABLE FEATURES WITH THE ZX SERIES. ZX21 | ZX20 | ZX200 | ZX190
ZX200

SPECIFICATIONS:
- Length on deck: 21’
- Beam: 80’
- Draft: 30’
- Normal load: 2200 lbs
- Max. load: 2800 lbs
- Storage capacity: 300 gallons

 CHARACTERISTICS:
- Max. weight: 2,094 lbs
- Max. persons: 10
- Fuel capacity: 30 gallons

The look has changed.
THE ATTITUDE REMAINS.

The Strengths of Design
A defining design feature of the Skeeter ZX200 is the constant curvature of the hull from bow to stern. With the center console just forward of the cockpit, you get a large front casting deck and a 12-inch console. While the deck is designed to be functional, the hull is designed for performance, increased strength and rigidity, prevent damage caused by shock or sudden impact.

The boat is a Skeeter of your dreams on page 5.

SkeeterBoats.com
ZX190

Keep equipment sections dry and lockable accessible from the back deck with three side storage compartments.

Keep your Tournament paint scheme coordinated with its own full-wood grain trim and center console.

Always keep your fishfinders within easy reach with this convenient 30-lb. center console rod locker.

The ZX Series comes standard with custom Skeeter waterjet graphics.

Stainless steel pop-up baitwell skid plate prevents fish from sliding out.

SkeeterBoats.com

Engineering Concepts

Aluminum Deck System:  
Precision-crafted, incorporated into the deck layout of Skeeter, provides maximum support and strength, with side deck closely spaced and fully secured. The system absorbs the shock and swells of commonly found Berkeley spotties. The standard 724 grit non-skid walkway features rubber non-skid runnings. Skeeter is designed for the fisherman.

The best boat is nuclear, see page 16.
TZX Series

TZX190 | TZX180 | TZX170

A Reassembled trolling motor pedal and bow control panel: Reassembled please review your owner’s manual for proper operation. Optional accessory storage is available for replacing the hinged seat base and operating the lock and release features. Additional spare parts and accessories are available.

B Cleat: Stainless steel cleat up front to keep the boat in position. Additional cleats are available for your convenience.

C Storage locker: This extra-large storage compartment is located in the center of the floor and is perfect for storing items such as fishing gear.

D Rod locker: Unlike other boats, this massive rod locker is designed in a way to make sure you keep your rods safe and sound for easy access.

E Bow deck console: The console is designed in a way to make sure the bow deck is accessed easily and maintain great visibility.

F Starboard storage locker: It’s not only convenient, it’s big enough for a spare boat motor.

G Retractable Rod Stow™: Now your rods will be securely stowed without a hassle and then deployed as needed.

H Ergonomically designed driver console: Redesigned to provide you with the perfect view of the gunnel and the accessories you will now have to take your fish off the boat. Accessory switches, pedals, and a fly-by-wire throttle are located on the console for easy access.

I Passenger console: Every boat comes with a locker in the console for storage, complete with an adjustable full-size seat.

J Red lifeline: Unlike other boats, this massive locker is designed in a way to make sure you keep your rods safe and sound for easy access.

K All-weather cockpit: The perfect complement to your interior, our options, colors, and patterns are designed to suit the boat and the weather.

L Fold-down fishing chair and ski seat: Now these 2000 performance seating features a fold-down fishing chair with 17" extension and ski seat with power pedal.

---

**It's more than a boat. IT'S A CLASSROOM.**

**Total Aerodynamic Design**

The design of both the hull and deck is aerodynamic. The bow is designed with a curved front that allows for the hull to slip through the water with minimal wind resistance. This reduces the turbulence and makes it easier to control the boat in the water. The aerodynamic design also helps to reduce wind noise and keep the boat cooler in hot weather conditions. The hull is designed with a low-drag profile to minimize fuel consumption and increase fuel efficiency.

ENGINEERING CONCEPTS

A Finish That Lasts
For pride and tranquility that’s as exclusive as it’s fancy - sporty. Skeeter’s finish behind the clamp allows a smooth surface and delivers the same quality finish from the factory where the topcoat is the same price. This method protects the wood and is sufficient enough to halt up for years of use.

Additionally, our wood boat Armrests are considered the best in the industry against wearing and chipping.

For boat covers seeshown on page 97.

TRAILERS
DURABILITY, STYLE, EASE OF HANDLING.

Our trailers are built for the long haul, designed for any boat. Our commitment to quality has never been more obvious.

FEATURES
OUR TRAILERS NOT ONLY PROTECT YOUR BOAT, THEY LOOK GOOD DOING IT.

DRIVER-SIDE TONGUE
Grip-able, engineered twist handles for right storage and retrieval.

LEVEL LIGHTS
Lighted forehead handles with bright LED lights make it easy to cut the soothing color and protect your site and fitting.

TONGUE STOP
Extruded aluminum bracket with easy access. Easy-to-access v-channel protects your boat's finish.

STEP STEP POLYMER FENDERS
All-weather polymer fenders with physical protection to keep your boat's finish free from nicks and scratches.

INDEPENDENT TORSION AXLES
Independent suspension on a full-length leaf spring system for a smooth and stable ride.

CONGRATULATIONS ON ANOTHER GREAT YEAR.

More and more, pro with the biggest fish on their boats leave the Skeeter name on their baits. We’re proud of their wins. But just as proud of the way they embody the character and that heritage of the Skeeter brand.

Continuing our commitment to competitive fishing we’ve signed on as the official boat sponsor of BASS and the prestigious Bassmaster Elite Series tournament trail.

Deep Blue Gundy has the 2012 season with 3 top ten spots and a win in the 2012 Challenge.

Jeremy Smith wins the Challenge on Douglas Lake.

Will Frazier takes the 2012 Elite Series event on Lake Victoria.

Aton Jones gets his 1st Elite win on the 12”, Dobson River, Snowmass.

Robert Record wins the 2012 Challenge on Lake Hartwell.

Steve Eggers wins the 2012 Challenge on Lake Hartwell.

**IF YOU LOOK CLOSLY YOU CAN SEE THEIR TINY WHITE FLAGS.**

WITH FOUR POWERFUL TECHNOLOGIES, FISH DON’T STAND A CHANCE.

They can run, but they can’t hide. The Humminbird® Side Imaging™ gives you a remarkably detailed, 480 foot side-to-side view. Below your boat chosen from remarkable Side Imaging™, and the new exclusive display modes of Sonar Imaging™. And now, there’s no fumbling from the selecting, 300 foot coverage of Side Imaging™ with the latest technology, sonar imaging, for your best option. Find out more at humminbird.com.
CALL IT A FISHING FAMILY REUNION

Skeeter owners love to fish. They love their boats. They love to fish. And they love opportunities. That’s why they gather by the thousands for our Owner’s Tournament event. There’ll be cash, prizes for 200 best catches, vendor displays, and lots of activities for the kids. Plus it’s a great opportunity to swap fishing stories. What else could you expect when family gets together? See our website to learn more.

OWNER’S TOURNAMENT

GREAT WELD catches from the Louisiana Delta.

Your passion is correct through thick and thin when you’re on a Skeeter boat.
CONTROL

Great Lakes, Great Boats.

SKEETERS DEEP-V HULLS ARE BUILT TO GIVE YOU MAXIMUM CONTROL in even the harshest conditions. Whether you’re running through rough waters in your favorite lagoon, or backtracking a tricky depth control in a bitty crossing, all our hulls are designed to be responsive and give you precise handling. Our true T-TRAC™ keel feature takes your precision fishing and fishing experience to a new level. Virtually sinks to the floor to keep you level and keeps you right where you want to be—on fish.

SKEETER’S DEEP-V HULLS ARE BUILT TO GIVE YOU MAXIMUM CONTROL in even the harshest conditions. Whether you’re running through rough waters in your favorite lagoon, or backtracking a tricky depth control in a bitty crossing, all our hulls are designed to be responsive and give you precise handling. Our true T-TRAC™ keel feature takes your precision fishing and fishing experience to a new level. Virtually sinks to the floor to keep you level and keeps you right where you want to be—on fish.

The PERFECT POWER FOR YOUR BOAT.

With a Yamaha outboard behind you, there’s nothing but good times ahead of you. Yamaha is an acknowledged reliability as power you can trust. Every last detail is engineered to give you advanced safety and a superior operating experience. Enjoy your time on the water with the confidence that your Skeeter has been Engineered Like No Other.

ADVANCED ENGINEERING CONCEPTS

The Yamaha F300A is a fully digital outboard engine designed specifically for Skeeter boats. The F300A features direct fuel injection, which delivers precise fuel delivery and a smooth, powerful performance. The engine is also equipped with a range of advanced technologies, including a fuel injection system that ensures maximum fuel efficiency, a digital acceleration system that provides smooth and responsive acceleration, and a digital governor system that ensures consistent and reliable performance.

EXCEL COMPOSITES

EXCEL COMPOSITES is a leading manufacturer of composite products for the marine industry. Our products are made from high-quality composite materials that are designed to withstand the rigors of the marine environment. We offer a wide range of composite products, including boat hulls, decks, and interior panels. Our composite products are designed to be lightweight, corrosion-resistant, and durable, ensuring a long-lasting performance in the marine environment.

ALUMINUM TRANSFER CHANGING/STRANGER SYSTEM

ALUMINUM TRANSFER CHANGING/STRANGER SYSTEM is a versatile system that can be used for transferring water from one side to the other. It is ideal for situations where you need to transfer water from a single source to multiple destinations. This system is designed to be simple and easy to use, with a robust design that can handle the rigors of the marine environment. It is also easy to install and maintain, making it an ideal choice for any marine application.

COMPOSITE STRINGERS

COMPOSITE STRINGERS are a type of composite material that can be used as a reinforcement in marine applications. They are made from a combination of fibers and resins, which provide a strong and durable material that can withstand the harsh conditions of the marine environment. Composite stringers can be used as a replacement for metal stringers, offering a lightweight and corrosion-resistant solution for marine applications.

Skeeter Boats is committed to providing the highest quality products that meet the needs of our customers. We take pride in our craftsmanship and attention to detail, ensuring that every Skeeter boat is built to meet the highest standards of quality and performance.
Tracks down big-water fish LIKE A BLOODHOUND

Multi-Species. Rough waters. No fish is safe from our multi-species trio. Fast and powerful these boats are built for big water. And when the conditions get tough, the rugged design stays down the center without wobbling. With a massive bow and steering drive, you'll be keeping up with the coolest of teams. Mother Nature's best be warned.
Skeeter Multi-Species Boats.com
Lever-Acting FUNCTION.

Ultimate Fishability

Easily launch or retrieve. The WX1850 is not short on drawers. All of its many accommodation spaces. Two lower storage windows, two seat storage boxes and port and starboard storage combined with an hull only and stowage under the console make the WX1850 a great family boat, but it's also an excellent fishing motor boat designed to handle some of the biggest bass. It's effortless to handle, doesn't have windage in the helm area, and doesn't take too much effort to steer or take off. The WX1850 is a perfect boat for anyone who is looking for a boat to use for both fishing and leisure activities.

Ergonomically designed driver's console with contoured seats and premium sound system options:

- Bow cleat and anchor
- 24" fishfinder
- Two comfortable up-tilt seats
- Built-in USB port
- Storage compartment
- LED light kit
- Trim tab
- VHF radio

For more information on Skeeter, visit SkeeterMultispeciesBoats.com.
The "Scout" Keel
The MX2025 has carved out the fundamental concept to develop the ultimate 20’ multi-species fishing boat. The result; the exclusive Revolutionary Advanced Control Technology (RACT) Keel. More than just a keel, it is the entire composite structure in the hull. The RACT Keel is designed with an aerated keel and aero-form rudder, to increase the boat’s speed, while also improving stability and handling. It’s simply a well-defined innovation that rivals competing boats.

For Boat details as shown see page 23.
HERE’S YOUR ANSWER TO “How did it do that?”

acreed flat line ballast keeps everything you need right up front and easy to reach.

Spacious and secure, this rod locker keeps your rods from becoming disorganized as you fish. A flat top rod holder storage locker keeps your gear protected.

Perfect for long runs, our fishing seat is designed for maximum comfort, and installs in seconds. Folding seat back at hand when it’s time to rest.

This massive 32-gal. ballast/fuelwell system keeps your weight down, and easily accessible while driving. It’s hidden from the rear deck.
A HARDCORE BOAT
for hardcore anglers.

SkeeterMultiSpeciesBoats.com

Smooth & Dry Ride

Deep V of the panties hull design works in conjunction with the forgiving outboard and bow-thruster design for better fishing. Less agitated, more enjoyable. The WX2000T is for the serious without an attack vehicle.

We’ve added 10 useful options, such as dual bicycle mounts, live well cooler, and 4-day battery and optional radio. You’ll have all your controls within reach.

One awesome feature is the large center baitwell keeps everything you need right up front.

Full 23-gal. transom storage will hold maps and potted trees, keeps fish alive while you keep fishing.

For easy 1 gal. side tanks keep your live bait fresh and easily accessible.

This boat is the key omega secure, dry, and readily accessible while you keep fishing.
STANDARDS AND OPTIONS

TRAILERS

DURABILITY, STYLE, EASE OF HANDLING
Our Skeeter trailers are designed to be the same high-quality Skeeter Marine engineering you’ve come to expect. Built to last and incredibly easy to load and unload, our trailers feature a thoughtful design that supports the transom, bow and any other features.

FEATURES

These trailers not only protect your boat, they make good doing it.
