These are exciting times at Skeeter. While we are proud of the fact that many of our products have become industry standards, that’s not enough for us. We’re always driven to create a better fishing experience. This means constantly innovating, refining, and improving on the foundation we’ve built since 1948. It means new designs, new materials, and, ultimately, new ways to make each day on the water the best you’ve ever had.

Let me briefly touch on two examples of our most recent innovations. The all new FXR series is one of our biggest stories this year. We engineered it from the ground up in hopes of creating a boat that will change the way anglers fish and make their time on the water even more productive.

The other big news is the latest addition to our SX family, the SX2550. With two options available, the SX2550 Fish and the SX2550 Family, this is not only the largest bay boat we manufacture, but also one of the most diverse. We loaded both options with features, and left plenty of room for customization.

In 2019, we were also honored to be included in the 2019 Progressive® Insurance Minneapolis Boat Show® Innovation Awards for the introduction of our WX2200, the biggest Deep-V we’ve ever produced.

The boats in the 2020 catalog represent more than 70 years of experience, knowledge, and innovation. With more than 300 employees committed to reaching new heights, we feel confident that the products we bring to market represent our continued dedication to excellence, and that you and your family will reap the benefits of our efforts as you find joy on the water.

Sincerely,

Jeff Stone
Sr. Vice President/General Manager, Skeeter Products, Inc.
OUR PASSION IS BUILDING SUPERIOR FISHING BOATS.

No other boat manufacturer boasts the rich history and heritage of Skeeter.

For over seven decades, generations of anglers have trusted Skeeter for their best fishing memories. Our production process uses advanced manufacturing techniques and materials, many of which were first used in aerospace applications. Skeeter’s X-Treme and EX-Cell composite construction ensure a smooth, dry, and safe trip to your favorite fishing hole.

**1948**
**HOLMES THURMOND**
In 1948, the first Skeeter Bass Boat, believed to be the first bass boat ever, is built by Holmes Thurmond in Shreveport, Louisiana.

**1950s**
**FIRST TO USE FIBERGLASS IN BOATS**
We introduce fiberglass into our boats’ construction, making it possible for more sizes and styles of boats to be produced in larger numbers, while maintaining the quality we are known for.

**1948**
**HOLMES THURMOND**
In 1948, the first Skeeter Bass Boat, believed to be the first bass boat ever, is built by Holmes Thurmond in Shreveport, Louisiana.

**1950s**
**FIRST TO USE FIBERGLASS IN BOATS**
We introduce fiberglass into our boats’ construction, making it possible for more sizes and styles of boats to be produced in larger numbers, while maintaining the quality we are known for.

**1975**
**FIRST V-BOTTOM BOAT**
Skeeter introduces the first V-bottom bass boat and sets a new standard in boating performance, bringing high performance and gaining popularity in the then-fledgling bass circuits.

**1983**
**COLEMAN**
The Coleman Company, already famous for their camping equipment, purchased Skeeter and our Fish ‘n’ Ski series was launched. That year, we also introduced the first SX bass model, beginning a line of boats that’s become the choice of thousands of fishermen.

**1990**
**FIRST DEEP-V BOAT**
Our line of Deep-V boats achieved greater recognition when the walleye model took the triple crown at Angler of the Year in all three major walleye professional tour circuits.

**1996**
**YAMAHA**
Skeeter is acquired by Yamaha Boat Company, teaming our innovative designs with the most technologically advanced outboard engine company in the world.

**2000s**
**TORQUE TRANSFER SYSTEM**
With the introduction of an all new Torque Transfer Transom, we set the industry precedent for modern construction.

**2010**
**THE FX SERIES**
Breaking barriers and building the dream of a bass boat, all others are measured against lead to the introduction of Skeeter’s FX Series. This line-up of the FX20 and FX21 redefined the standard for the tournament angler, providing a competitive edge on the water.

*www.skeeterboats.com*
1961
STEMCO MARINE
Ben Cook, co-founder of Stemco Corporation, acquires Skeeter patent rights and moved the plant to Longview, Texas. During the mid-60s, we saw greater demand for bigger boats, more horsepower, and greater control at high speeds.

1992
THE ZX SERIES
AND FIRST BAY BOAT
Our innovative ZX series is unveiled, combining a level of performance and set of features never seen before. It became and is still the #1 selling line in Skeeter history.

2017
SKEETER BUILT® TRAILERS
We open a 43,000 square foot facility in Kilgore, Texas, enabling us to build our own high-quality, innovative, Skeeter Built® trailers in-house.

2020
REDEFINING THE STANDARD.
INTRODUCING THE REVOLUTIONARY
THE NEW STANDARD HAS ARRIVED.

Advanced design concepts and hundreds of hours of testing bring you the ultimate bass boat, with lighter and stronger components and a whole new level of fishability. Stability and maneuverability you expect, with styling and innovation that will take your breath away. You feel good driving it. You look good riding in it. You perform better because of it.

ENGINEERING AND PERFORMANCE UPDATES

Hull and structural components: New hull meticulously CAD-designed and extensively R&D and performance-tested. We also increased the deadrise and modified the pad for a smoother ride. Casting decks are bigger and the cockpit area wider, thanks to increased length and a wider beam.

Weight reduction: We manufactured the boat with lighter materials without sacrificing strength by developing refined composite materials and redesigning structural components throughout. While we were at it, we redesigned the torque transfer system, mounting plates, and deck lids. Overall, you get premium performance and maximized handling.

DESIGN AND STYLING UPDATES

Coloring: We’ve created 12 new color package options – 4 in the APEX lineup and 8 in the LIMITED lineup, all with new style lines, 3D accents, and surface flaring for a unique visual look. You also get solid TriTec, solid gel with accents, and tri-color with pins.

Seating and Comfort: We redesigned the seats for increased comfort and sportier styling. That includes adding bolstering, a bold new upholstery design, and flared headrest grab handles. You’ll also find a new step on the Skeeter Built® FXR trailer.
Aggressive hull styling with 3-D accenting and style lines reflecting Skeeter heritage.

New Skeeter® branded Rod Staze™ with stainless steel hook and latch.

Custom brushed aluminum plates. Keep wires organized and free from binding.

Wider bow design. Gimbal mounted Humminbird® Helix® 12 CHIRP MEGA SI.

Wider cockpit with more room between seats and wider step down from deck.

Built-in passenger side rod organizer with Rod Staze™ to keep rods secure.

All new Skeeter® FXR Series exclusive aluminum seat back plate.

Oversized bilge compartment. Split-lid design and raised battery shelf for easy maintenance access.

Removable, modular tackle storage. Trays hold six Flambeau® 5007 size boxes each.

Wider bow design. Gimbal mounted Humminbird® Helix® 12 CHIRP MEGA SI.

FXR SERIES FEATURES

FXR SERIES CONSTRUCTION

ALUMINUM LIDS AND DECK GRID SYSTEM
Aluminum structure provides superior support and strength, with all aluminum lids that close tightly and lock securely. This system eliminates gel coat cracking around the storage compartments and will not flex, bend, or squeak.

FULL FLEX BOLSTERED PERFORMANCE SEATING
Our all new full flex bolstered performance seating comes with a suspension ride for a more comfortable ride. We also offer Syntec® and Spradling® premium exterior grade leather touch vinyl material.

TORQUE TRANSFER SYSTEM
This revolutionary system, exclusive to Skeeter, is constructed of high-test aircraft grade structural aluminum bolted through our full width, EX-Cel composite transom. It is designed to transfer the tremendous energy and stress developed by the thrust of today’s high torque outboards to the bottom structure of the hull.

STRONG EX-CEL COMPOSITE HULLS
For some of the industry’s strongest fiberglass hulls: the transom, stringers and floor utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability. Unlike our competitors, we only use foam for flotation and build the strength into our extra thick hull and deck sides using our unmatched fiberglass lamination process.

FXR SERIES ENGINEERING AND CONSTRUCTION

FXR SERIES EXPANDED LAYOUT
If bigger means better, these boats are some of the best. We’ve added more space from bow to stern so you have more room to move about when you’re after those fish.

PRONOUNCED BOW
We’ve bumped up the size of the bow by 18" at the bow panel and added 5" of width at the trolling motor recess.

LARGER BOW CASTING DECK
Casting decks are wider, with more space between seats. Plus, we’ve added 10% more room at the Rod Staze.

WIDER, ROOMIER COCKPIT
More room in the cockpit for easier walk-through, an extra step or two of width on the interior beam. Wider step down from the deck, too.

LARGER REAR DECK AND EXPANDED RIGGING
Rear deck enlarged by 10% and the rigging opening is more than double the previous size.

INCREASED LENGTH
We’ve added a few more inches of overall length to make the FXR series sit more comfortably in the water and glide across it more smoothly.

UNIQUELY DESIGNED FOR STRENGTH AND RELIABILITY.

Innovation drives us to build the ultimate fishing machine for you. Our world-class team of designers and engineers strive for perfection. With input from our dealers, customers and staff of professional anglers, our pursuit is on-going to maximize your fishing experience! Skeeter boats are ENGINEERED LIKE NO OTHER™. Here are some really good reasons why:

SKEETER HULL CHARACTERISTICS

Skeeter has forever led the way in producing the most advanced boats money can buy. Our dedication to performance has set the bar year after year. We have always sourced the best engineers, whose forward thinking designs have made us who we are today. The longest running bass boat company in the world. Period. We started it, we led it, and now we are ready to take you to a whole new level of engineering.

A Strakes: Angled cuts along the chines provide lift and act as a rail, deflecting water as it smooths the ride and eliminates chine walking.

B Concave Hull Sections: These concave hull sections deliver control and comfort, even in the roughest conditions by deflecting large volumes of water down and away from the driver and passengers.

C Reverse Chines: Adding another layer, the reverse chines deflect any additional water passing over the running surface.

D Running Surface: The aggressive area of the hull combines the center pad and the inner strakes to give Skeeter the smoothest, driest ride in the industry.

E Center Pad: The heart of the running surface where width, angle and height are precisely engineered to deliver the best combination of speed, handling and load-carrying capability.

CONSTANT CURVATURE PRINCIPLE

A distinguishing design feature of the Skeeter hull is the constant curvature of the boat from bow to stern. With the widest point just forward of the console, every Skeeter boat has a high buoyancy coefficient. This prevents the bow from dropping down in large waves thus ensuring a soft, dry ride. This also allows for a larger front casting deck and oversized storage. With the deck gunwale designed to intersect the hull at three angles, increased strength and rigidity prevent damage caused by dock or timber impact.

F Turning Chines: These important performance features limit the amount of heel the boat will experience during mid to high speed turns to keep you in control.

G Water Flow Foil (Setback): Allows water flowing under the boat to quickly rise and cover the prop while a minimal amount of hull remains in the water, reducing drag.

H Sponsons: Water flowing up from the setback pushes the sponsons up and gets the boat quickly on plane. At rest, they act as pontoons that allow you to walk from side to side without rocking the boat.

NO CHINE WALKING

Skeeter was the first in the industry to develop the sponson hull capability concept and the V-hull pad design. Our boats are fast and nimble, but we never sacrifice safety. Our boats are built to give you maximum control, even in the harshest conditions.

STABILITY

Whether on plane, idling or trolling along through your favorite fishing hole, our sponson and wide hull design provides the stability you expect. As a result, Skeeter has been recognized for “Excellence in Customer Satisfaction for Fiberglass Bass Boat” by CSI for 19 consecutive years!

WIDTH MATTERS

Our Deep-V hull along with reverse chines, keeps your ride smooth and dry. As the widest point of the hull is its middle, we take precision handling even further, locking the hull to the water with bite.

FASTER HOLE SHOT

With over 70 years of hull design experience, Skeeter has mastered the hole shot. Our hull setback position pushes the right amount of water to the prop, providing the perfect amount of lift, while reducing drag.

TESTED & APPROVED

From our lab to the plant floor, from the trailer to the water, our boats are exposed to rigorous research, development and testing. Your Skeeter boat will always meet or exceed stringent internal and industry certifications.

MANEUVERABILITY

As part of NMMA® industry standards, all Skeeter models are put through the maneuverability test. By accelerating the boat to its maximum speed, and then turning 180 degrees with no change in settings, the boat passes the test by completing a 90 degree change in direction without the driver losing confidence in his or her ability to maintain control.
As we strive for continuous improvement across the board, Skeeter is building all of our trailers in our 43,000 square-foot facility in Kilgore, Texas. Skeeter Built® Trailers come with an exclusive limited lifetime warranty. Each trailer is fabricated and welded using a multi-step, quality-approach process, which includes washing and prepping for painting, priming, Tuff Coat application and pin striping. While your Skeeter boat provides a smooth ride on the water, our Skeeter Built® Trailers with torsion spring axles offer a smooth ride on the road. Our brake system, composite fenders (FXR Series), and Vault wheel hubs are built for function and style. Brakes on all axles provide additional safety and control when towing your boat. Our digital wheel and axle alignment technology gives you an added peace of mind. This vertical integration also gives us more flexibility, more customization, and more innovation!

PERFORMANCE TRAILERS

For those ready for a whole new game. For years, tournament anglers championed the two stroke, sacrificing fuel economy and power for performance. That is until Yamaha unleashed the world’s first 4.2L Super High Output four stroke outboard. The four stroke V MAX SHO® offers all the advantages of a two stroke in a clean burning, fuel efficient four stroke. The Yamaha-Skeeter combination provides the level of performance that anglers have always wanted.

YAMAHA POWER

Lightest Weight in Class
34 pounds light, with no lighter equivalent-horsepower production V6 bass outboard out there, including two strokes.

Acceleration and Top Speed
Advanced sensor technology allows maximum safe ignition timing, outperforming popular two stroke models for hole shot and top speed.

Better Cooler/Straighter Tracking
Our design provides straighter tracking, increased cooling capacity, and efficiency.

Powerful Charging
With 46 amps of total alternator power at 1,000 rpm and a full 50 amps from 2,500-6,000 rpm, V MAX SHO® outboards offer the kind of charging power needed for today’s on-board electronics.

From the beginnings of Yamaha Motor Corporation in 1953, the stage was set for success through a vision of innovation. Only a few years before that, Holmes Thurmond built the first bass boat, designed upon many of the very characteristics of today’s bass boats – stability, shallow draft, room for tackle and gear and easy movement around the inside of the boat. His boat was dubbed a “Skeeter,” because of its long, needle-shaped nose that resembled a mosquito. These two joined forces in 1996, when Yamaha Motor Corporation purchased Skeeter. Throughout the past 20+ years, Skeeter has introduced the next generation of bass boats, including the FXR and ZX Series. These boats have also served as the platform for Yamaha’s four-stroke SHO engine technology – combining a powerhouse in boating and fishing. Along the way Yamaha motors have been keeping the Skeeter bass boat ahead of the pack with unmatched performance and reliability.

“Over 20 Years with Yamaha”

“If you are going to make it, make it the very best there is.”

– Genichi Kawakami, Yamaha Motor’s first president.

Skeeter is proud to be a Yamaha company.

All Skeeter boats have been certified by the National Marine Manufacturers Association®, and meet all United States Coast Guard and American Boat & Yacht Council requirements.
To our national and international dealers and distributors—

WE THANK YOU FOR BEING A PART OF THE SKEETER FAMILY.

INTERNATIONAL APPEAL—LOCAL ROOTS

With 139 dealers in 39 states and international dealers and distributors in Canada, Japan, Mexico and South Africa, you’re never far from your local Skeeter representative. Where there’s water, you’ll likely find Skeeter nearby.
INTRODUCING THE REVOLUTIONARY FXR SERIES.

ALL NEW FOR 2020 FROM SKEETER.

Everything you’ve been wanting in a boat is right here. Nothing but top of the line, standard equipment, and out the door for less than you’d think. No one puts more into engineering, design, performance, or fishability than us, so no one will get more out of this boat than you.
CAN THE BEST GET BETTER? SEE FOR YOURSELF.

We practically started from scratch. We redesigned components to make them lighter, increased performance, and finished it off with a tri-tech metallic gel coat that’ll make it look as good as it feels.

WWW.SKEETERBOATS.COM
1. **Team Advantage Deck Layout:** Twin center rod and tackle storage featuring Mega Rod Tubes, dual day boxes, and tackle storage built into the outside boxes for nine Plano® 3700 boxes that come with the boat.

2. **4-Color, Full-Flex, Bolstered Seating:** Built for comfort and built to last. Our upholstery sourced in the USA, resists abrasion, UV and mildew, and is even fire retardant.

3. **ProRule® Corrosion-Resistant Measuring Board with Skeeter Logo:** 100% aircraft aluminum, black powder coated, anodized and accurate to 5/1,000ths of an inch.

4. **Cockpit Command Center:** Multi-functional gauges with aluminum trim plates. Rocker switch panel, tilt hydraulic steering, Hot Foot™ and SeaStar Solutions® Pro Trim.

5. **Exclusive Humminbird® Helix® Electronics:** Gimbal-mounted Helix® 12 CHIRP MEGA SI GPS G3N w/ temp (Dash) and Helix® 9 CHIRP GPS G3N w/ temp (Bow).

6. **Skeeter Built® Trailer:** Tuff coat, channel frame, steel fenders, tandem torsion axles and dual disc brakes.
THIS COULD BE THE KEY TO YOUR TOURNAMENT STRATEGY.

We built it with a deck that gives you plenty of room to roam, as well as every feature you need when you’re trying to sew up first place.

**THE BEST FIRST BOAT OUT THERE.**

Quality engineering, design and tradition. You get all the things that make Skeeter an industry leader at a price that’s less than you’d expect.
ZX190
STANDARD FEATURES

1. **Minn Kota® 70 Edge Trolling Motor**: Recessed pedal for comfort and Minn Kota® 70 Edge trolling motor with 24V power, 42” shaft and 70 pounds of thrust.

2. **26-Gallon Livewell System**: With independent fill/recirculating drain modes, with timer.

3. **Bow Deck Cooler**: Use this convenient 30-qt. forward deck cooler to keep your refreshments cold and easily within reach.

4. **Rod Locker with Gas-Assisted Lift**: Includes integrated rod storage system to support your rods individually and keep them from getting tangled.

5. **3-Color, Full-Flex, Bolstered Seating**: Offers maximum support and premium style in rough water or extreme weather conditions.

6. **Exclusive Humminbird® Helix® Electronics**: Flush-mounted Helix® 5 CHIRP GPS G3N w/ temp (Dash) and Helix® 5 CHIRP GPS G3N w/ temp (Bow)
ACTUALLY,
YOU REALLY CAN PLEASE EVERYONE.

Want to do some serious fishing? Want to float around the lake with the kids? Want to do both the same day? These boats are perfect for it. Versatile, good looking, and quality-built.
YOU LOVE YOUR FAMILY. THEY'LL LOVE THIS BOAT.

Create memories this summer that will last forever. Whether you’re teaching the kids how to fish or spending a lazy day just floating around the lake, you’ll enjoy every minute.

YOU LOVE YOUR FAMILY. THEY’LL LOVE THIS BOAT.
1. **Ski Tow Pylon & Retractable Swim Ladder:** Removable pylon creates a higher attachment point giving skiers a faster hole shot and better control.

2. **Floor Storage:** Store the ski tow pylon, ski gear or 7’ fishing rods.

3. **Rear Jump Seats:** Additional rear jump seats ensure you have a seat for everyone on board.

4. **Cockpit Command Center:** Humminbird® flush-mounted Helix® 7 CHIRP GPS G3N w/ temp.

5. **Powerful Trolling Motor:** Minn Kota® Terrova® 112/US2/IP with 112 lbs. of thrust, 36V power and 60” shaft with i-Pilot® and sliding removable mount.

6. **Insulated Livewell/Baitwell Control System:** 24-gal stern and 8-gal bow featuring independent fill, recirculating and drain modes w/ pump timer.

7. **Infinity® Stereo with Four Speakers**

8. **Bimini Top:** Quickly set up the Bimini top for shade.
**Solera 189**

Feels like a custom-built boat but has standard features galore. Holds rods and reels, skis, floats, and plenty of good times.

Choose the custom color combination you’ve always dreamed of. Select “Build My Skeeter” at SkeeterBoats.com. Print it out, and find a dealer near you.

COLOR RULES

Rough water and extreme weather conditions won’t hold you back from a comfortable and smooth ride. Designed to look good and last long, Skeeter’s custom seating is designed with quality upholstery vinyls sourced in the U.S.A. This material offers abrasion resistance, UV resistance for up to 1,000 hours, mildew resistance, is fire retardant and can withstand cold cracking to -10°F. Our premium quality thread is resistant to rot and decay and is guaranteed to last the lifetime of the upholstery.

UPHOLSTERY

COLOR RULES FOR FXR21/FXR20

1. Hull Pins = Deck Pin, Console Pins & Accent Pins (Any Flake)
2. Hull = Interior Deck & Outside Console (Any Flake or White, Grey Satin)
3. Hull Stripe = Deck Stripe, Deck Accents & Inside Console (Any Flake or White, Grey Satin, Silver Spur Gel)
4. Hull Stripe Accent = Deck Stripe Accent & Pro Stripe (Any Flake or White, Grey Satin, Silver Spur Gel)
5. Run Surface = Black, White, Grey Satin or Silver Spur Gel
8. Primary Vinyl Exclusions = Blue Grey Silvertex, Regal Red Diamonte & Lime Green Silvertex
9. Fender = Any Flake

WWW.SKEETERBOATS.COM
COLOR DESIGN GUIDE

Whether it’s the colors of your favorite college or professional sports team, the color of your pick-up truck or simply the boat bling to impress, Skeeter offers a wide range of options. Gunmetal? Got it. Laser Red? Check. How about Nassau Blue? Done. Be bold with our synthetic poly-flake that resists migration through the clear gel top coat and provides a smoother, longer lasting finish. From the hull to the deck. From the seats to the stripes. Select “Build My Skeeter” at SkeeterBoats.com and build your next bass fishing machine.

S Standard Feature  O Optional Feature  NA Not Available

Sleek, stylish and built to last with the functional features you need.

The Skeeter FXR Series trailer features euro-step composite fenders, swing-away tongue, tandem independent torsion axles with brakes on both axles, tongue step, custom side step, LED lights, precision digital wheel alignment and more.

**LED LIGHTS**
Style matches function with bright LED lights sealed to lock out the elements and protect your bulbs and wiring from exposure while underwater.

**TONGUE STEP**
Step up with ease thanks to our convenient non-slip tongue step for a dry launch.

**INDEPENDENT TORSION AXLES**
Each trailer wheel features a sealed, independent suspension for a smooth ride with much less maintenance than traditional leaf spring systems.

**SWING-AWAY TONGUE**
For added convenience, our swing-away tongue snaps back for tighter storage and increased safety.

**DIGITAL WHEEL ALIGNMENT**
Every Skeeter Built® Trailer is built to an exacting alignment standard to maximize tire life and towing efficiency and minimize tow vehicle tire wear and drive-line loads.

**EURO-STEP COMPOSITE FENDERS**
Add distinct style to your ride with fenders that complement the color of your FXR Series boat.

**CUSTOM WHEEL OPTIONS**
Skeeter offers several wheel options, so it’s easy to upgrade and create a style all your own. From sporty to sophisticated—you decide.
OWNERS’ TOURNAMENT
YOU’RE OFFICIALLY INVITED TO
A FISHING FAMILY REUNION.

Skeeter’s 27th annual Owner’s Tournament will again be held at famous Lake Fork on June 11th-14th, 2020. Join thousands of Skeeter owners from across the country; including those who run bass, deep-v, and bay boats; for fun, fishing, food and entertainment. There is something for every member of the family. Join us this summer and fish with a chance to win over $200,000 in cash and prizes!

Chance to win up to $200,000 in cash and prizes!

Mark your calendar now and plan to join us. Go to skeeterboats.com for details.

JUNE 11-14, 2020
LAKE FORK, TX

APPAREL
Tell the world you love the good life.

Our full line of Skeeter apparel, headwear, gear for men, women and children is great looking and durable, just like everything with the Skeeter name. To see our full selection shop online at SkeeterBoats.com. Got a question? Please email orders@skeeterapparel.com

BASS® AND SKEETER
The perfect association.

Skeeter is proud of its long-standing partnership with the Bass Anglers Sportsman's Society – both being strong stewards for bass fishing globally, and providing opportunities for novice, recreational and professional anglers to take their fishing to the next level. As the official boat sponsor of BASS®, Skeeter encourages its family to support our industry by joining BASS®. We've yet to find a better fishing buddy!
