This year, Skeeter offers you a choice of twelve basic hull designs; and here's an added bonus. In this day and age of package deals, we'll build your boat any way you want it! There's a choice of 2,712 different carpet, upholstery, and color combinations. Including accessories, there are literally thousands of variations for whatever model you choose.

Notice that each of the following pages contains a checklist. First, decide what hull configuration you want, then pick up your pencil and check the options you desire in addition to standard equipment. Now locate the charts and add your color selections and unlisted options to your checklist. Take the completed list to your Skeeter dealer and have him order your dream machine. Who says you can't have things just the way you want it? Happy boating!
