Passion
WE BUILD IT INTO EVERY BOAT.

WE KNOW YOU. You love charging through big, open water, with the wind in your face. Your pulse races—anticipating what you might find at the end of your line. You relish the thrill racing between the grass beds in search of a dream spot of mullet or speckled trout. We know you, because we are you. We love saltwater fishing as much as you do. And it shows in every boat we build.

THERE’S ONLY ONE JUDGE
The boater behind the wheel.

So we’re both excited and grateful that, for the ninth consecutive year, Skeeter was recognized for “Excellence in Customer Satisfaction for fiberglass runabout boats” as part of the 2009 Marine Industry CSI awards. The program honors companies that maintain a customer satisfaction rating of 90 percent or higher.

Skeeter offers the original retail purchaser a Structural Warranty that covers any major structural defects in the material or workmanship, for the duration of the ownership. Unlike most companies, the Structural Warranty may also be transferred to the second owner for a full 10 years from the first retail purchase date.

Skeeter also offers a Component Warranty to the first retail purchaser, where certain factory-installed parts are covered for up to three years from the date of purchase. The Component Warranty may not be transferred to a second owner and is subject to limitations outlined in the 2011 Skeeter Fiberglass Limited Warranty.

Skeeter is proud to be a Yamaha company.

Proof that our focus is on YOU.
With a Yamaha outboard behind you, there’s nothing but good times ahead of you. Yamaha makes the same commitment to reliability, engineering and performance as Skeeter does. The perfect boat. The perfect outboard. It’s a match made in saltwater heaven.

All Skeeter boats have been certified by the National Marine Manufacturers Association®, and meet all United States Coast Guard and American Boat & Yacht Council requirements.

The aggressive 20-degree deep-V of the Skeeter hull design works in conjunction with the primary and secondary reverse chines to keep the water off of you and in the bay. Smooth and dry is how every ride is remembered in a Skeeter.

When you bring the hammer down, a quick view of the bow is all you get. Getting on plane takes a mere three to four seconds as the hull levels into a highly aggressive attitude. Without a second to lose, we put you in a better position to win.

Revolutionary ideas. Constant testing. Rigorous manufacturing standards. Commitment to input from pros, dealers, and consumers. It all translates into peace-of-mind and stronger resale values. Enjoy your time on the water with the confidence that your Skeeter has been Engineered Like No Other™.

All Skeeter hulls have been designed to meet or exceed the NMMA® Hull Angle Turn 90° Maneuverability Test. The test is conducted by accelerating the boat to its maximum speed, and sharply turning the wheel 180-degrees with no change in settings. The boat passes the test by maintaining a 90° change in direction without the driver losing confidence in his ability to maintain control.

The future of bay boat power. It’s the first of its kind—a V-6 big-bore four stroke outboard for bay boats. And it’s outperforming competition two strokes with:

• Up to 13% quicker hole shot
• Class-leading, 4.2 liter, big-bore displacement and power-to-weight ratio
• Next generation technology that’s lighter than previous V6 two strokes and four strokes

That’s just for starters. It’s also delivering clean-burning power and a level of fuel efficiency anglers never thought they’d see out on the open water.

In high-speed tournament conditions or just cruising the bay on a Sunday afternoon, control is crucial on the water. For maximum performance and safety, your hull should resist listing, slipping or skipping. That’s why Skeeter adheres to NMMA®, Coast Guard and American Boat & Yacht Council standards. If you’re in a Skeeter, you’re in control.
If you tend to fish primarily offshore, this is probably the better hull for you. Ideally suited to longer shaft, 4-stroke engines, our V Hull models really operate well when you’re trolling in big water.

“V” HULL MODELS
ZX24V, ZX22V

All our boats have a distinctive “V” shape that helps them move in and out of the water easier and faster. It also enables our boats to float in very shallow water and handle extremely well in either rough or shallow water. Be sure to look at our entire line to find the model that matches up best with your style of fishing.

INNOVATION
Especially made for shallow water, when you’re running and gunning. Shorter shaft, HPDI ® engines increase the performance factor even more, with faster acceleration and higher top-end speeds.

“BAY” HULL MODELS
ZX22BAY, ZX22BAY TUNNEL, ZX20BAY

Especially made for shallow water, when you’re running and gunning. Shorter shaft, HPDI engines increase the performance factor even more, with faster acceleration and higher top-end speeds.

“DEEP-V” HULL MODELS
ZX2250

With higher gunwales and a deeper V-hull shape, the ZX2250 is built to cut through deep water and make the long runs through the passes. Brute strength and a smooth ride coupled with a detailed deck layout make the ZX2250 the most efficient boat you’ll ever own.

INNOVATION
Injection-Molded Composite Doors: Combining state-of-the-art vacuum-infusion processes and fast-curing, environmentally-friendly techniques, the doors on your Skeeter boat are built tough to protect your gear for years to come. Specialty glass and resins combine with PVC cross-linked foam cores to give you durable hatches that are lightweight, insulated, and highly resistant to impact and corrosion.

Composite Two-Piece Console: From an advanced multi-step, hand-lamination process using fiberglass and resins materials, to the same industry’s best Armstrong Tribal Technology used on our hulls and decks, the Skeeter Bay Boat console is built for performance. Each console features an integrated glove-quet, fuel, rod holders, bulletin board, and even the convenient access to wiring and batteries.

Molded Combined Deck and Floor: The floor is one solid piece. It is composed of a PVC crosslinked foam, sandwiched between layers of fiberglass. Aluminum Torque Transfer Transom & Stringer System: This revolutionary system bonds high-test aircraft structural aluminum to the EX-Cel transom and stringer eliminating stress on the hull.

A Finish That Lasts: The polyflake finishes are applied using an exclusive “dry flake” system that allows the flakes to be applied behind the clearcoat for a finish that reduces torque through the clear gel top coat and finish layers. Additionally, our premium Armorcoat ® gel coats are exceedingly tough and are considered the best in the industry in regard to weathering and blistering.

EX-Cel Composites, for the Industry’s Strongest Hull: The transom, stringers and floor utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability.

A Finish That Lasts: The polyflake finishes are applied using an exclusive “dry flake” system that allows the flakes to be applied behind the clearcoat for a finish that reduces torque through the clear gel top coat and finish layers. Additionally, our premium Armorcoat ® gel coats are exceedingly tough and are considered the best in the industry in regard to weathering and blistering.

It’ll get you to the fish. You worry about getting them in the boat.

Skeeter’s Bay Boat series features the best combination of saltwater muscle and attitude. Perfect for chasing redfish or speckled trout through winding grass channels and across skinny flats, these boats handle big water with equal agility. Whether you’re fishing heavy mangrove roots in a Florida backwater, or drifting scattered shell reefs in an open Texas bay, you can do it with Skeeter attitude. Eat. Sleep. Fish.
Optional bimini top: Fold-down top protects from sun and rain.

Battery box: Reconfigured console panel with storage for your lifejacket or gear and provides easy access to batteries for convenient maintenance underneath.

E-Ladder™: Getting back in the boat is simple. Just pull the pin on this aluminum ladder and gravity sets it up. Now standard on all Skeeters.

Optional Power Pole®: Remote control automatically hoists and drops anchor to help you stay put.

Ergonomically designed helm: Helm includes center-mounted wheel, easier access to electronics and storage, eight chrome rod holders and more leg room.

Console access door: Conveniently access your battery charging systems or electronics when needed.

Helm baitwell seat: New seat design and convenient location keeps you comfortable, while 13-gallon, aerated baitwell keeps your live bait healthy.

Starboard front fish box: Extra large and insulated to keep your catch secure and fresh.

Optional swim platform: Step platform provides safe and secure access to water.

Anchor storage box: Molded grooves hold fluke-style anchors securely, with plenty of space for rope and chain.

Rod locker: Roomy and secure, with improved molded rain lips on select models.

Document storage compartment: Console tube keeps important papers safe and dry.

Features may vary according to model. Please see your authorized Skeeter dealer for details.
ZX24V

REAR DECK FEATURES

A Rear Deck: Keep your extra gear secure in deep, dry, isolated storage boxes with easy access to your livewell and baitwell nearby.

B Jump Seats: Convenient fold-down seats for easy loading and added comfort.

C Optional Yamaha 300HP 4.2L V6 4-stroke Outboard: When you're ready for more power, this motor combines massive thrust with Yamaha reliability.

SPECIFICATIONS:

- Length on trailer: 30'6"
- Width on trailer: 102"
- Boat length: 24'1"
- Beam: 101"
- Engine shaft length: 25"
- Max. height on trailer: 98"
- Interior depth: 19"
- Shaft: 24" L
- Dry weight: 2,618 lbs
- Max. trim/exposure: 300

CAPACITORS:

- Max. weight: 1,680 lb.
- Max. persons: 6/1,680 lbs.
- Fuel capacity: 30 gals.

**Console**

WHAT'S SO SPECIAL ABOUT OUR NEW CONSOLE? It was redesigned by you. Armed with valuable feedback from Skeeter customers and dealers, our designers set out to make our boats even more fisherman-friendly. The result? A completely redesigned console with a bevyload of additional features. Like a convenient inter- positioned steering wheel, easy-access control panel, chrome rod storage and increased legroom. Basically, we took the best bay boats on the water — and made them better.

**FEATURES:**

• CENTER-POSITIONED STAINLESS-STEEL STEERING WHEEL: Designed to put the steering wheel where you naturally stand when driving — the center of the console.

• YAMAHA COMMAND LINE™ GAUGES: Engine function, fuel management, water depth, temperature, tracking RPM control. Standard on G20 and T200 engine selections.

• FLEXIBLE MOUNTING OPTIONS: Electronics can be flush-mounted or dash-mounted.

• INCREASED LEG ROOM: Angled base gives you more room to step closer to the console or under the seat while you lean back.

• EXTRA-LARGE BATTERY ACCESS DOOR: Easy-in and easy-out. Hinged door is large enough to reach and store your batteries side-by-side. Hooking up your deep-cycle trolling batteries at the end of a long day in the water is a breeze. And storing all your batteries in the console together increases optimal weight distribution.

• EASY-ACCESS CONTROL PANEL: Rocker switches at your fingertips.

• CONSOLE ROD HOLDERS: You'll always have the right rod within easy reach.

• CONSOLE BAITWELL WITH SEAT AND BACKREST: functional and comfortable.

With Skeeter’s interactive boat building software the only limit is your imagination. Make your selections. Print out a color mock-up. Hang it up. Let your family weigh in and do it again. Select “Build My Skeeter” at skeetersaltwater.com. It’s fast, easy and fun to create a style all your own.

Extra-tough Armorcoat® gel coats that are considered the best in the industry against weathering and blistering.

PERFORMANCE UPHOLSTERY
Heavyweight, marine-grade vinyl that’s flame retardant, abrasion resistant, and UV stabilized.

PERFORMANCE FLAKES
A synthetic polyflake that resists migration through the clear gel top coat and provides a longer lasting, smooth finish.

PERFORMANCE GELS
Extra-tough Armorcoat® gel coats that are considered the best in the industry against weathering and blistering.

Build your own boat at skeetersaltwater.com.
BAY BOAT SERIES TRAILER

GET YOUR BOAT IN AND OUT OF THE WATER WITH CONFIDENCE. This trailer is designed and built to withstand both the tough demands of the highway and the harsh conditions of saltwater.

HEAVY-DUTY TONGUE JACKET
Keeping you securely fastened to your ride, the heavy-duty tongue jacket also effectively guards against theft.

4X CROSSBAR BUNK SUPPORT
Strength and durability are built right in with 4X crossbar bunk support that is reinforced to carry the load and maintain a stable ride.

SALTWATER ALUMINUM WHEELS
Adding style with quality, the distinct saltwater aluminum wheels ensure years of dependable performance and confidence.

ALL-WELDED CONSTRUCTION
Full body welds reduce the number of mechanical fasteners and greatly increase the life of the trailer.

DURABLE DOUBLE ROLLER
Adding protection and ease during launching and loading, the durable front and rear double rollers help maintain hull integrity.

SWING AWAY TONGUE JACK
Heavy-duty jack is designed to swing completely out of the way when trailering and easily guides you into storage.

CHOOSE YOUR WEAPON.
ARM YOUR SKEETER WITH A FULLY LOADED HUMMINBIRD.

Take aim and land the big one with three powerful fish-finding technologies from Humminbird®. Down Imaging™ and Side Imaging® display amazing, detailed images that show exactly what is going on below the surface. SwitchFire™ Sonar kicks our downlooking sonar up a notch, giving you the choice of two display modes for even more on-water versatility. Gone nothing to choose, and stun the neighbors with an arsenal of Humminbird technologies. Look for new icons to identify exactly which features our units offer. Take control with Humminbird, and dominate the water. Find out more at humminbird.com.

Apparel

TELL THE WORLD YOU LOVE THE GOOD LIFE with our full line of Skeeter apparel and gear. It’s great looking and durable, just like everything else with the Skeeter name. Shop online at skeeterboats.com.

Your passion comes through loud and clear when you’re wearing Skeeter apparel.

WIN UP TO $2,000 FOR EACH ELIGIBLE TOURNAMENT.

Casting Your Line OFF THE CHASE BANK? Think also the money. Skeeter sanctioned approximately 2,500 tournaments last year as part of our Real Money program. Supporting grass roots fishermen is part of our DNA. What else would you expect from a company of fishing fanatics?

Support

CATCHING FISH ISN’T THE ONLY BENEFIT. There’s also the money. Skeeter sanctioned approximately 2,500 tournaments last year as part of our Real Money program. Supporting grass roots fishermen is part of our DNA. What else would you expect from a company of fishing fanatics?

1. BUY a Skeeter boat. Purchase any new or used Skeeter boat powered by a Yamaha engine.
2. REGISTER. Visit your local, authorized Skeeter dealer to obtain a registration form, or download at skeeterboats.com. The dealer can also register your boat online. You can also register Skeeter boat owners who do not go through an authorized Skeeter dealer to change the Serial Number on your registration by calling 903-983-5657. A $25.00 registration fee per angler goes to a scholarship fund for 15% of the Sun Bowl race. Real Money boat decals, and yeah, Skeeter fans, indeed do fish.
3. FISH & WIN in contingency-sanctioned paying events. A list of sanctioned tournaments and payouts are posted on our Web site. A schedule of sanctioned tournament dates is compiled in late winter, and updated periodically on our Web site. Schedules are subject to change without notice.
4. GET PAID. Payments are made only to Skeeter boat owners and approved “official” tournament results from you and all Rules and Conditions for applicable year have been met. To be eligible for incentive, you must register prior to participating in a contingency-sanctioned paying event.
