PASSION
WE BUILD IT INTO every boat.

WE KNOW YOU. For some, it’s fishing. For us, it’s a way of life. At Skeeter we Eat. Sleep. Fish. For twenty years we’ve been manufacturing inshore saltwater boats that are built for you to fish, and engineered by us to last. We know you, because we are you. We love saltwater fishing as much as you do and it shows in every boat we build.

SkeeterSaltwater.com
THERE’S ONLY ONE JUDGE
THE BOATER BEHIND THE WHEEL.

So we’re both excited and grateful that, for the tenth consecutive year, Skeeter was recognized for “Excellence in Customer Satisfaction for Fiberglass Outboard Boats” as part of the 2011 Marine Industry CSI awards. The program honors companies that maintain a customer satisfaction rating of 90 percent or higher.

Join us at SkeeterSaltwater.com for all the latest products, videos, specs and review the industry’s strongest warranty. Use your smart phone QR code reader and visit us from your mobile device by scanning this code.

LIMITED LIFETIME WARRANTY

- Skeeter offers the original retail purchaser a Structural Warranty that covers any major structural defects in the material or workmanship, for the duration of the ownership.
- Unlike most companies, the Structural Warranty may also be transferred to the second owner for a full 10 years from the first retail purchase date.
- Skeeter also offers a Component Warranty to the first retail purchaser, where certain factory-installed parts are covered for up to three years from the date of purchase. The Component Warranty may not be transferred to a second owner and is subject to limitations outlined in the 2012 Skeeter Fiberglass Limited Warranty.

skeetersaltwater.com

Skeeter is proud to be a Yamaha company.

For complete details, terms and conditions, visit skeetersaltwater.com.
IN HIGH-SPEED TOURNAMENT CONDITIONS or just cruising the bay on a Sunday afternoon, control is crucial on the water. For maximum performance, your hull should resist listing, slipping or skipping. That’s why Skeeter adheres to NMMA®, Coast Guard and American Boat & Yacht Council standards. If you’re in a Skeeter, you’re in control.

ENGINEERED LIKE NO OTHER

SMOOTH & DRY RIDE
The aggressive 20-degree deep-V of the Skeeter hull design works in conjunction with the primary and secondary reverse chines to keep the water off of you and in the bay. Smooth and dry is how every ride is remembered in a Skeeter.

FLOATS SHALLOW
You want to go where the fish are. And sometimes that means the shallows. We engineered our boats for maximum performance in minimum depths. Because sometimes the difference in a great catch is a matter of inches.

QUICK HOLE SHOT
When you bring the hammer down, a quick view of the bow is all you get. Getting on plane takes a mere three to four seconds as the hull leans into a highly aggressive attitude. Without a second to lose, we put you in a better position to win.
LEADING THE WAY

Revolutionary ideas. Constant testing. Rigorous manufacturing standards. Commitment to input from pros, dealers, and consumers. It all translates into peace-of-mind and stronger resale values. Enjoy your time on the water with the confidence that your Skeeter has been Engineered Like No Other.™

ALL SKEETER BOATS HAVE BEEN CERTIFIED
by the National Marine Manufacturers Association®, and meet all United States Coast Guard and American Boat & Yacht Council requirements.

THE NMMA® 90° MANEUVERABILITY TEST
The test is conducted by accelerating the boat to its maximum speed, and then sharply turning the steering wheel 180 degrees with no change in settings. The boat passes the test by completing a 90° change in direction without the driver losing confidence in his ability to maintain control.

(+) PASS: DRIVER MAINTAINS CONTROL AFTER 90° TURN  
(-) FAIL: DRIVER LOSES CONTROL AFTER 90° TURN

THIS CRITICAL TEST IS JUST ONE EXAMPLE OF HOW WE NOT ONLY ADHERE TO, BUT EXCEED OUR INDUSTRY’S TECHNICAL PRACTICES.

Reliability

THE PERFECT POWER FOR YOUR BOAT.

With a Yamaha outboard behind you, there’s nothing but good times ahead of you. Yamaha is as obsessed with reliability as you are with the water. Every last detail is engineered to give you advanced outboard technology you can count on. Every weekend. Every year.

THE YAMAHA VMAX SHO® & NEXT GENERATION V6 OFFSHORE FOUR STROKES
THE FUTURE OF BAY BOAT POWER.

It’s the first of its kind—a V-6 big-bore four stroke outboard for bay boats. And it’s outperforming competition two strokes with:
- Up to 13% quicker hole shot
- Class-leading, 4.2 liter, big-bore displacement and power-to-weight ratio
- Next generation technology that’s lighter than previous V6 two strokes and four strokes

That’s just for starters. It’s also delivering clean-burning power and a level of fuel efficiency anglers never thought they’d see out on the open water.

Reliability Starts Here:
FIRST, WE CALL ON SCIENCE — our boat-building techniques were developed by engineers from the aerospace industry. Then we apply a healthy dose of Skeeter passion. We talk to dealers. Run tests. Talk to customers. Run more tests. We’re not satisfied until our boats achieve the performance and fishability worthy of the Skeeter name.

PERFORMANCE HULLS

BUILT WITH YOUR STYLE OF FISHING IN MIND Our boats are fished everyday from backwater to bluewater. We’ve designed three uniquely defined series of inshore saltwater boats to meet your needs. Our constant curve design and signature Smoothe, Dry Ride are standards in every Skeeter. Be sure to look at our entire line to find the model that matches up best with your style of fishing.

“V” HULL MODELS
ZX24V, ZX22V
The missing link between inshore and offshore fishing, our “V” hull designs are ideally suited for longer shaft, 4-stroke engines. These boats are at home fishing a deep-water wreck as they are trolling motoring on a flat.

“DEEP-V” HULL MODELS
ZX2250
With higher gunwales and a deeper V-hull shape, the ZX2250 is built to cut through deep water and make long runs through big water. Brute strength and a smooth ride coupled with a detailed deck layout make the ZX2250 the most efficient boat you’ll ever own.

“BAY” HULL MODELS
ZX22BAY, ZX22BAY TUNNEL, ZX20BAY
Especially made for shallow water use when you’re running and gunning. Our “Bay” models are designed to run fast, run skinny, and feature Best in Class shallow water draft.
A FINISH THAT LASTS: Our premium Armorcoat® gelcoats are exceedingly tough and are considered the best in the industry in regard to weathering and blistering. Additionally, the polyflake finishes are applied using an exclusive "dry flake" system that allows the flake to be sprayed behind the clearcoat for a lustreous, durable finish that resists migration through the clear gel top coat and lasts longer.

B MOLDED COMBINED DECK AND FLOOR: The floor is one solid piece. It is composed of a PVC crosslinked foam, sandwiched between layers of fiberglass.

C EX-CEL COMPOSITES FOR THE INDUSTRY'S STRONGEST HULL: The transom stringers and floor utilize seven different types of fiberglass aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability.

D INJECTION-MOLDED COMPOSITE DOORS: Combining state-of-the-art vacuum infusion processes and materials with low-emission, environmentally-friendly techniques, the doors on your Skeeter Bay Boat are built to protect your gear for years to come. Specialty glass and resins combine with PVC cross-linked foam core to give you durable hatches that are lightweight, insulated, and highly resistant to impact and corrosion.

E ALUMINUM TORQUE TRANSFER TRANSMON & STRINGER SYSTEM: This exclusive, revolutionary system bonds high-test aircraft structural aluminum to the EX-Cel transom and stringer eliminating stress on the hull.

F COMPOSITE TWO-PIECE CONSOLE: From an advanced multi-step, hand-lamination process using fiberglass and resin materials, to the same industry's best Armorcoat® Technology used on our hulls and decks, the Skeeter Bay Boat console is built for fishermen. Each console features an insulated polyethylene baitwell, rod holders, stainless steel handrail, and a rear door for convenient access to batteries and wiring.
Smooth through the shallows.

WICKED THROUGH THE WAVES.

Skeeter’s Bay Boat series features the best combination of saltwater muscle and attitude. Perfect for chasing redfish or speckled trout through winding grass channels and across skinny flats, these boats handle big water with equal agility. Whether you’re fishing heavy mangrove roots in a Florida backwater, or drifting scattered shell reefs in an open Texas Bay, you can do it with Skeeter attitude. Eat. Sleep. Fish.
**Anchor storage box:** Molded grooves hold fluke-style anchors securely, with plenty of space for rope and chain.

**Stainless Steel Latches:** Lockable, flush mounted latches in the injection-molded composite doors keep your equipment safe and secure.

**Non-skid gunwales and grab rails:** The Saltwater series features extra-tall gunwales with a molded, non-skid textured surface. Optional stainless steel handrails offer additional support.

**Rod locker:** Roomy and secure, with improved molded rain lips on select models.

**Optional Washdown:** Convenient washdown system located in front of the rear starboard deck for quick and easy cleanup.

**Console rod holders:** You’ll always have the right rod within easy reach using these stainless steel console rod holders.

**Helm baitwell seat:** New seat design and convenient location keeps you comfortable, while 13-gallon, aerated baitwell keeps your live bait healthy.

**Ergonomically designed helm:** Helm includes center-mounted wheel, easier access to electronics and storage, eight chrome rod holders and increased leg room than competitors.

**Console hand rails:** Allow your passenger to hold on tight with these sturdy stainless steel hand rails on each side.

**Cleats:** Stainless steel pop-up cleats snap down when not in use.

**Console access door:** Conveniently access your battery charging systems or electronics when needed.

**Document storage compartment:** Console tube keeps important papers and your wallet safe and dry.

**Leaning post:** Stainless steel leaning post with under seat storage for your keys and spare Skeeter cap, rocket launcher-style rod holders, and optional seat back for that added comfort.

**Removable 100 qt. cooler:** Removable cooler keeps your extra catch on ice or use it as a cooler to keep your refreshments cold.

**Battery box:** Reconfigured console panel with storage shelf for your lifejacket or gear that provides easy access to batteries for convenient maintenance underneath.

**Optional bimini top:** Fold-down top protects from sun and rain.

**Optional swim platform:** Step platform provides safe and secure access to water.

**E-Ladder™:** Getting back in the boat is simple. Just pull the pin on this aluminum ladder and gravity sets it up. Now standard on all Skeeters.

Features may vary according to model. Please see your authorized Skeeter dealer for details.
**ZX24V**

**SPECIFICATIONS:**
- Length on trailer: 30'6"
- Width on trailer: 102"
- Boat length: 24'
- Engine shaft length: 25'
- Max. height on trailer: 98'
- Interior depth: 19'
- Draft: 15'
- Dry weight: 2,840 lbs.
- Max. horsepower: 300

**CAPACITIES:**
- Max. weight: 1,800 lbs.
- Max. persons: 8/1,160 lbs.
- Fuel capacity: 80 gals.

---

Extra large and insulated starboard fish box to keep your catch secure and fresh.

Two comfortable jump seats, perfect for your family, that fold flat to expand the stern casting deck.

This massive baitwell and livewell keeps fish alive while you keep fishing and bait at hand when it’s time to reset.

Rear jump seats open up to access rear storage and fold flat to expand the stern casting deck.

Keep equipment secure, dry, and easily accessible from the back deck with these wide storage compartments.
Aluminum Torque Transfer Transom
This patented revolutionary system, exclusive to Skeeter and standard in the ZX24V and ZX22V, is constructed of high-test aircraft grade structural aluminum bolted through our full width, EX-Cel composite transom. It is designed to transfer the tremendous energy and stress developed by the thrust of today’s high torque outboards to the bottom structure of the hull eliminating stress on the transom and hull sides.

For boat colors as shown, see page 25.
ZX22V

SPECIFICATIONS:
- Length on trailer: 29’
- Width on trailer: 102”
- Boat length: 22’6”
- Beam: 101”
- Engine shaft length: 25”
- Max. height on trailer: 98”
- Interior depth: 19”
- Draft: 15”
- Dry weight: 2,620 lbs.
- Max. horsepower: 250

CAPACITIES:
- Max. weight: 1,851 lbs.
- Max. persons: 8/1,096 lbs.
- Fuel capacity: 60 gals.

Reconfigured console panel with storage shelf for your life jacket or gear and provides easy access to batteries.

Keep gear and supplies stored conveniently below the front deck, with easy access via a hinged door.

This massive casting deck is perfect when you need to run a full crew and need room to move around.

Optional 30-gallon leaning post baitwell that replaces the leaning post and cooler for that extra bait you need.

Keep equipment secure, dry, and easily accessible from the back deck with these wide storage compartments.
Smooth & Dry Ride
Skeeter’s unique hull design causes the water to be directed downward thus preventing the water from traveling up the hull and outward causing a wet ride. As the boat encounters a wave, the aggressive deep-V splits the wave causing the water to travel up the hull. The larger the wave, the larger the volume of water needed to be turned downward. Large waves are controlled by the large primary reverse chine and the secondary reverse chine. An exclusive Skeeter engineering design feature.

For boat colors as shown, see page 25.
ZX2250

SPECIFICATIONS:
- Length on trailer: 28'8"
- Width on trailer: 102"
- Boat length: 22'6"
- Beam: 101"
- Engine shaft length: 29"
- Max. height on trailer: 99"
- Interior depth: 22"
- Draft: 15"
- Dry weight: 2,720 lbs.
- Max. horsepower: 250

CAPACITIES:
- Max. weight: 1,851 lbs.
- Max. persons: 8/1,096 lbs.
- Fuel capacity: 60 gals.

Keep gear and supplies stored conveniently below the front deck, with easy access via a hinged door.

Extra large and insulated starboard fish box to keep your catch secure and fresh.

Optional 30-gallon leaning post baitwell that replaces the leaning post and cooler for that extra bait you need.

Rear jump seats open up to access rear storage and fold flat to expand the stern casting deck.

Keep equipment secure, dry, and easily accessible from the back deck with these wide storage compartments.
ROUGH WATERS?
That’s subjective.

SKEETER
ENGINEERING CONCEPTS

Smooth & Dry Ride
Skeeter’s unique bay boat hull design combines an aggressive deep-V at the bow and uncompromising tapered deadrise making it second to none. The deeper V and higher gunnels of the ZX2250 allow you to slice through the waves and run offshore but you can still reach fish in the shallows because of the shallow draft. Brute strength and a smooth ride coupled with a detailed deck layout makes the ZX2250 the most efficient boat you’ll ever own.

For boat colors as shown, see page 25.
KEEP YOUR FISH OR BAIT FRESH AND LIVELY LONGER WITH THIS RECONFIGURED 40-GALLON BAITWELL.

DEEP AND WIDE BOW STORAGE COMPARTMENT REDESIGNED WITH MOLDED RAIN LIP TO KEEP YOUR GEAR DRY AND EASILY IN REACH.

EXTRA LARGE AND INSULATED 102 QT. STARBOARD FISH BOX TO KEEP YOUR CATCH SECURE AND FRESH.

STORE TACKLE, PFDs, AND ANYTHING ELSE YOU NEED FOR A GREAT DAY ON THE WATER IN THESE IMPROVED STORAGE BINS.

ENHANCED DRY STORAGE UNDERNEATH THE JUMP SEATS, WITH A DROP-IN BIN, MAKE FOR EASY LOADING AND ADDED COMFORT.
GRAB THEIR ATTENTION, then leave it behind.

SKEETER ENGINEERING CONCEPTS

250 HP Yamaha VMAX SHO*
When you’re ready for more power, this motor combines massive thrust with Yamaha reliability. With up to 13% quicker hole shot, the 250 HP V-6 big-bore four stroke gets you moving in a hurry. And once it reaches top end speed, you may need to hold on to more than your hat. In this sport you have to think fast and that’s what Skeeter and Yamaha continue to do best.

For boat colors as shown, see page 25.
ZX22BAYT

SPECIFICATIONS:
Length on trailer ..........27'8"
Width on trailer ..........10'2"
Boat length ...............21'10"
Beam ......................9'8"
Engine shaft length ........20"
Max. height on trailer .......98"
Interior depth .............18.5"
Draft ......................11"
Dry weight ................2,070 lbs.
Max. horsepower ..........250

CAPACITIES:
Max. weight ...............1,851 lbs.
Max. persons .............8/1,096 lbs.
Fuel capacity .............60 gals.

Keep your casting net and gear stored conveniently in this new floor storage with easy access.
Standard 8" hydraulic jackplate makes it easy to adjust engine height and run into skinny water.
Fold-down convenient jump seats with enhanced dry storage underneath with a drop-in bin.
Rear rigging door makes it easy to access your pumps and bilge area when in the water or on the trailer.
Get skinny fast! Skeeter’s unique tunnel hull enables you run in only inches of water as you blast across the bay.
Unleash your VERSATILITY.

SKEETER.  
ENGINEERING CONCEPTS

Get Skinny Fast!  
The ability to chase the game fish into the shallow sand banks can yield a delicious reward. Flats become your ambush zone when the optional tunnel hull and adjustable hydraulic jackplate of the newly redesigned ZX22BAY leave your prey nowhere to hide. Skeeter’s exclusive ZX22BAY tunnel hull option provides the smooth, dry ride of a V-Hull while providing excellent shallow water performance.

For boat colors as shown, see page 25.
SPECIFICATIONS:
Length on trailer...........25'6"
Width on trailer............10'2"
Boat length................19'8"
Beam..........................9'8"
Engine shaft length........20"
Max. height on trailer.....9'3"
Interior depth..............18'5"
Draft.........................10"
Dry weight..................1,750 lbs
Max. horsepower............150

CAPACITIES:
Max. weight..................1,392 lbs.
Max. persons................5/737 lbs.
Fuel capacity.................45 gals.

Keep your fish or bait fresh and lively longer with this reconfigured 35 gallon baitwell.
Deep and wide bow storage compartment redesigned with molded rain lip to keep your gear dry and easily in reach.
Two comfortable jump seats, perfect for your family, that fold flat to expand the stern casting deck.
Use the drop-in bins to make it easy loading in the dry storage underneath the fold-down jump seats.
Flip/flop seating with 100 qt. cooler underneath with seat back for that added comfort.
**SKEETER ENGINEERING CONCEPTS**

**Industry’s Strongest Hull**
The transom, stringers, hull and deck utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability. The console is composed of a crosslinked foam, sandwiched between layers of fiberglass and vacuumed infused with resin which provides unparalleled strength. Unlike our competitors, we only use closed-cell polyurethane foam for floatation and build the strength into our extra thick hull and deck sides using our unmatched fiberglass lamination process.

For boat colors as shown, see page 25.

[SkeeterSaltwater.com](http://SkeeterSaltwater.com)
MORE ROOM FOR YOUR LEGS, MORE ROOM TO BREATHE, AND MORE ROOM TO DRIVE! This console was designed by you. Armed with valuable feedback from Skeeter customers and dealers, our designers set out to make our boats even more fisherman-friendly. The result? A completely different console with a boatload of additional features. Like a convenient center-positioned steering wheel, easy-access control panel, chrome rod storage and increased legroom. Basically, we took the best bay boats on the water — and made them better.

FEATURES:

• CENTER-POSITIONED STAINLESS-STEEL STEERING WHEEL: Designed to put the steering wheel where you naturally stand when driving—the center of the console.

• YAMAHA COMMAND LINK® GAUGES: Engine function, fuel management, water depth, temperature, trolling RPM control. Standard on F250 and F300 engine selections.

• FLEXIBLE MOUNTING OPTIONS: Electronics can be flush-mounted or dash-mounted.

• 2-PIECE CONSTRUCTION: For easier maintenance and servicing.

• INCREASED LEG ROOM: Angled base gives you more room to step closer to the console or lean back while you cruise the bay.

• EXTRA-LARGE BATTERY ACCESS DOOR: Easy-in and easy-out. Hinged door is large enough to reach and store four batteries side-by-side. Hooking up your deep-cycle trolling batteries at the end of a long day on the water is a breeze. And storing all your batteries in the console together increases optimal weight distribution.

• EASY-ACCESS CONTROL PANEL: Rocker switches all at your fingertips.

• 8 CONSOLE ROD HOLDERS: You’ll always have the right rod within easy reach.

• CONSOLE BAITWELL WITH SEAT AND BACKREST: Functional and comfortable.

BAY BOAT TRAILER

GET YOUR BOAT IN AND OUT OF THE WATER WITH CONFIDENCE.
This trailer is designed and built to withstand both the tough demands of the highway and the harsh conditions of saltwater.

TRAILER FEATURES:

DURABLE DOUBLE ROLLER
Adding protection and ease during launching and loading, the durable front and rear double rollers help maintain hull integrity.

HEAVY-DUTY TONGUE JACKET
Keeping you securely fastened to your ride, the heavy-duty tongue jacket also effectively guards against theft.

4X CROSSBAR BUNK SUPPORT
Strength and durability are built right in with 4X crossbar bunk support that is reinforced to carry the load and maintain a stable ride.

SALTWATER ALUMINUM WHEELS
Adding style with quality, the distinctive saltwater aluminum wheels ensure years of dependable performance and confidence.

SWING AWAY TONGUE JACK
Heavy-duty jack is designed to swing completely out of the way when launching and easily guides you into storage.

ALL-WELDED CONSTRUCTION
Full body welds reduce the number of mechanical fasteners and greatly increase the life of the trailer.
TOGETHER
THEY’RE UNSTOPPABLE.

HUMMINBIRD® SIDE IMAGING®+ DOWN IMAGING®+ SWITCHFIRE™

You never settle. Neither do we. That’s why we didn’t stop with the amazing detail of Side Imaging®. We wanted more. So we introduced the remarkable image clarity of Down Imaging®, now available on more models than ever before. Then, to top it all off, we took our 2D sonar to the next level with SwitchFire™, offering two display modes for greater versatility. On its own, each of these technologies is a force to be reckoned with. Together, they can’t be stopped. And neither can you. Find out more at humminbird.com.
SUPPORT

CATCHING FISH ISN’T THE ONLY BENEFIT. There’s also the money. Skeeter sanctioned approximately 3,000 tournaments last year as part of our Real Money program. Supporting grass roots fishermen is part of our culture. What else would you expect from a company of fishing fanatics?

SkeeterSaltwater.com

WIN UP TO $2,000 FOR EACH ELIGIBLE TOURNAMENT.

Win the most while fishing the best. It’s easier now, with the 2012 Skeeter Real Money Program. The payouts at grass roots events keep growing and this year’s purse could be even higher. Just another reason why we’re the leader in tournament fishing. Register for Real Money today. Real Money Program dates are from January 1 through December 31, 2012.

1. **BUY** a Skeeter boat. Purchase any new or used Skeeter boat powered by a Yamaha engine from a dealer or private party.

2. **REGISTER.** Visit your local, authorized Skeeter dealer to obtain a registration form, or download at skeetersaltwater.com. You must register each year to be eligible. If you acquire a different Skeeter boat after you are registered, please contact Skeeter to change the serial number to your registration by calling 903-983-5657. A $50.00 registration fee per angler includes a membership card, an Official Real Money hat, Real Money boat decal, Skeeter truck decal, and patch.

3. **FISH & WIN** in a contingency-sanctioned paying event. A list of sanctioned tournaments and payouts are posted on our Web site. A schedule of sanctioned tournament dates is compiled in late winter, and updated periodically on our Web site. Schedules are subject to change without notice.

4. **GET PAID.** Payments will be made once Skeeter receives and approves “official” tournament results from you and all Rules and Conditions for applicable year have been met. To be eligible for incentive, you must register prior to participating in a contingency-sanctioned paying event.
APPAREL

TELL THE WORLD YOU LOVE THE GOOD LIFE with our full line of Skeeter apparel and gear. It’s great looking and durable, just like everything else with the Skeeter name. Shop online at skeetersaltwater.com.

Your passion comes through loud and clear when you’re wearing Skeeter apparel.

Clothes make the fisherman, too.

Are you a FRESHWATER FANATIC?
