LEADING THE WAY

INDUSTRY STANDARDS ARE JUST THE START.

Revolutionary ideas. Constant testing. Rigorous manufacturing standards. Commitment to you from parts, dealers, and consumers. It all translates into piece-of-mind and stronger resale values. Enjoy your time on the water with the confidence that your Skeeter has been Engineered Like No Other.*

INSHORE, NEAR SHORE OR OFFSHORE

VERSATILITY OF ONE BOAT THAT CAN DO IT ALL

What kind of fisherman chooses Skeeter’s Bay Boat series?

How about Captain Blair Wiggins, host of TU’s Addictive Fishing? He loves the fishability, huge bait well and the smooth, dry ride powered by Yamaha. Extreme fishing demands an extreme boat. Tune in as Captain Blair and Skeeter team up to track down fish with real-deal, drop- screenshot attitude.

www.SkeeterBoats.com
WHEN IT COMES TO PERFORMANCE
OUR BOATS ARE ENGINEERED LIKE NO OTHER.

BUILT WITH YOUR STYLE OF FISHING IN MIND.
All our boats have a distinctive “V” shape that helps them move in and out of the water easier and faster. It also enables our boats to float in very shallow water and handle extremely well in rough water. We see to it at our centre line to find the model that matches up best with your style of fishing.

GET THE HUNTING PICTURE

TO US, “LIST”, “SLIP” AND “SKIP” are the worst kind of four-letter words. In tournament conditions or just cruising the bay, you never know when you need to turn on a dime. That’s why Skeeter is the only way to see the action. We start with MAMM, US Coast Guard, and American Boat & Yacht Council Standards specifications, then go above and beyond for the ultimate in performance and safety.

SOUTH SHORE WAY INCLUDES DEALER INSTALLED OPTIONS NOT AVAILABLE FROM THE FACTORY.

SX240
If you tend to fish primarily offshores, this is probably the boat for you. It’s built to take on larger water, columnist engines, and all the gear you pack on an exceptional ride by DJing through large waves on the deep water.

SX2250
With higher maxes and a deeper V-shaped hull, the SX2250 is built to take on larger water, and hold the long run through the waves. The SX2250 is the ideal choice for those who want to have that SX2250’s ability to work on the water.

SX280 / SX280T / SX260 / SX200
Superbly made for shallow water, wide range of water, and the highest top-speeds.

www.GreastorGladet.com
RELIABILITY STARTS HERE

THE FUTURE OF OUTBOARD POWER.

It’s the first of its kind — a triple-outboard stroke outboard on a 22’, 225-hp Yamaha! This groundbreaking new combination comes with:

• Triple-Cyl, 6-cylinder outboard
• Dual, 140-lb. thrust propeller system
• Propulsion system designed for maximum efficiency and performance
• Hydraulic drive technology that provides a smoother, more efficient and fuel-efficient ride

THAT’S NOT FOR SHOW!

It’s all about giving you the power and control of twin-efficiency engines even though they’re set out in the open water.

THE YAMAHA V MAX SHO AND NEXT GENERATION V6 OFFSHORE FOUR STROKES

With Yamaha outboard behind you, there’s nothing but good times ahead of you. Yamaha is as obsessed with reliability as you are with the water. Every link in our drivetrain is engineered to give you advanced outboard technology you can count on. Day after day, year after year.

STURGIS EX-CELL COMPOSITE HULLS

EX-Cell Composite, the second most durable mechanical composite made at Yamaha, is engineered to provide maximum strength and durability. Under this hood, you truly have front to back and side to side strength in our entire hull and deck using our exclusive long-base laminate process.

TORSION TRANSFER SYSTEM®

The advanced new offshore series is designed to handle the most extreme conditions. It’s designed to transfer the maximum amount of power with maximum efficiency. That means maximum violence to your boat and your throttle. Twin 650-lb. propellers connect to the bottom of the outboard engine and then to the top of the transmission. That’s where the power is transferred.

ELODER REDUCED COMPOSITE DOORS

Combining the latest in composite technology, the doors have maximum durability. This is why you can trust the doors of your Yamaha offshore series to stand up to the demands of the offshore environment.

COMPOSITE FOUR PIECE CONSOLE

The console is made of high-strength, high-molecular-mass composite that’s lighter and stronger than steel. It’s designed to withstand the harshest conditions. The Yamaha offshore series offers a console that’s lightweight, insulated, and highly resistant to impact and corrosion.

HOW WE MAKE BOATS FLY

FIRST, WE CALL ON SCIENCE — our boat building techniques were developed by engineers from the aerospace industry. Then we apply a healthy dose of boating passion. We talk to dealers. Run tests. Talk to customers. Run more tests. We’re not satisfied until we have achieved the performance and reliability worthy of the Skeeter name.
AWARD WINNING CUSTOMER SERVICE

FOURTEENTH CONSECUTIVE YEAR FOR EXCELLENCE IN CUSTOMER SATISFACTION.

We are excited and grateful that, for the fourteenth consecutive year, Skeeter is recognized for “Excellence in Customer Satisfaction for Fiberglass Outdoor Boats.”

THE ONLY ONE THAT COUNTS - THE BOATER BEHIND THE WHEEL

Even in a world of innovation, Skeeter stands alone. We begin with revolutionary ideas, often in response to feedback from our pro's, dealers and customers. Then we subject these ideas to constant testing and rigorous manufacturing standards so that each boat we build delivers high performance, peace of mind and outstanding resale value. Innovation — it’s why every Skeeter is “Engineered Like No Other.”

LIMITED LIFETIME WARRANTY

- A limited lifetime structural warranty that covers any major structural defects in the material or workmanship for the duration of the ownership.
- Unlike most companies, the Structural Warranty may also be transferred to the second owner for a full 10 years from the first retail purchase date.
- Skeeter also offers a Component Warranty to the first retail purchaser, where certain factory-installed parts are covered for up to three years from the date of purchase. The Component Warranty may be transferred to a second owner and is subject to limitations outlined in the 2016 Skeeter Fiberglass Limited Warranty.

Skeeter is proud to be a Yamaha company.

www.SkeeterBoats.com
INTELLIGENT DESIGN
FOR THE AVID FISHERMAN

MORE STORAGE, MORE ORGANIZED AND MORE SPACE FOR YOU.
Armed with valuable feedback from Skeeter customers and dealers, our designers set out to make our boats even more fishermen-friendly. The result: A completely revised console with a boatload of additional features such as the membrane switch panel. We have also changed the design of the leaning post to now include up to nine (8) rod holders and a maximum total of seventeen (17) vertical rod holders. The console access compartment has also been totally reorganized to make it easier for routine inspection and maintenance.

These are just some of the new changes to our SY line of Bay boats. Basically, we took the best buy boats on the water and made them better.

Keep your personal items safe and dry by storing them in the rear jump seat storage compartment.

Mostly used rear seat area by folding down the rear jump seats.

New revised center console covered center with instrumentation. Comes standard with the most advanced, serviceable, and durable 9.8 LCD or 12-inch color touch screen graphi.

Shower the tackle box and personal safety equipment in the leaning post storage compartment.

New Console Membrane Switch Panel

Underneath the lighting console cover is conveniently located below the helm, sealed switch plates and a new touch screen.

A redesigned rear fitness compartment for easier access and read the gauge more.

Keep your catch safe and alive in this rear forward fishbox with full rear wall and side panels.

Keep your anchor and rope organized in the bow anchor compartment.

www.SkeeterBoats.com

REDESIGNED DECK LAYOUT
Expanded front casting deck with larger rod boxes, bigger casting compensation wheel, and large storage lockers with improved seals. Full roll tops and added deck drains help keep your gear dry and secure.

NEW LEECHWELLS AND BAITWELLS
These light but strong boxes allow you to store additional tackle and lures to catch more fish and provide a more secure environment.

IMPROVED MOUNTING
The Skeeter Sheetmetal console and leaning post are firmly attached to an aluminum bolster plates behind the center console using Stainless-steel straps and anodized aluminum. The bottom plate is bolted to the boat’s transom and is totally removable. All bolts are stainless steel and are secured with lock nuts. A total of 5 T-handles are installed the same way ensuring a solid hold that will last for years to come. An all-Waterproof product is shown. Options may vary.

EVEN GRIP DEEP WAVE PERFORMANCE COOLER: The number one grip-aid cooler in the country today. Most of our stainless-steel mountings, it was designed from the ground up to re-but what an ice chest could be. In the 60” or 72” stainless steel frame has a insulated top, bottom and able to provide 6-10 days of cool-keeping capability.

THE INSIDE STORY

THE OUTSIDE STORY

Images shown above are illustrative of typical © COMMERCE INTERNATIONAL GROUP, LTD. All Rights Reserved.

SIMPLY THE BEST: An air-tight freezer gasket and flush-mounted marine gradeatches with stainless steel hardware ease the load and make sure that what poured in is still there. The all-weather seat, weather tight and durable, and can be used over any seat and will provide a most comfortable fishing experience.
INSHORE, NEAR SHORE, OR OFFSHORE

VERSATILITY OF ONE BOAT THAT CAN DO IT ALL.

Most bay fishing is near shore. Our Bay Series has the versatility to find directs off the shore. They are in open water, shallow waters, or wandering the flats. Outstanding performance like this takes both muscle and style. Whether you're moving across the bay or sitting silently in the shallows, the fish don't stand a chance.

www.GreaterGLades.com
ULTIMATE IN COASTAL FISHING.

One moment you’re fishing right on the coast, the next you’re helming the boat 10 miles offshore. This boat takes you wherever the fish are - which is where you need to be.

SX240 FEATURES

1. Skeeter Signature Control Tower: Carved sculpted with a Lorenzo® 104™ Black BioFinn Tower, Quattro Yamaha multifunction gauges, and drink holder.
2. Leaning Post w/ Vertical Rod Holders: Engineered to practically built for centrals. Carved-up stainless-steel rod holders with the leaning post vertical rod holders, and conveniently stores your items in the under-seat storage.
3. Optional Front Back Cushions: Keep your passengers cool and comfortable on long day trips while they’re relaxing in the sun.
4. Standard Compass/Weather Band: Keep your vessel alive and healthy with the rear bark 2022 stainless-steelounder and rear storage. The control tower has an extra 20 and 30-watt reversing pumps with timer.
5. Anchor storage area: Two watertight rear storage compartments
**Brute Strength and Smooth, Dry Ride.**

It’s got higher gunwales and sides that let you go freeride into open water, but it’s just as comfortable with your buddies or crew up the coast with the family. People love the way it feels and the way it lets, which is why it has become one of our most popular models.

---

**SX2250 FEATURES**

1. **Optional Tri-Flow凭什么**
   - Add more utility space, mount extra wheel and cuts, and stay cool with the optional Tri-Flow.

2. **Rear Jump Seats**
   - Give your tailgating experience by comfortably seating extra passengers with these fold down jump seats. Design for rear storage and fold flat for a larger storage area.

3. **Vertical Raw Rails**
   - Now comes with a very generous amount of vertical raw. Smoothed 1/2” combined rail on the transom post and center console.

4. **Blue Dock Hitch Lock System**
   - We’ve reworked the lock system to make it easier for a secure your onboard storage.

5. **Insulated Standard Front Filler**
   - Keep your cool with or can spend more time out on the water.

FOLLOW THE FISH ON THE FLATS.

Run wide open in deep water with the SX220, and if you want to go even shallower, the SX220T with its tunnel hull allows you to literally fly along on inches of water.

**FIRE RESISTANT PEONY: SEE PAGE 27**
PACKAGED RIGHT AND NICELY PRICED.
Just because it’s affordable doesn’t mean we cut a single corner. It’s got all the extras and all the durability that make it a Skeeter. This boat is the best way you can get our high standards at our lowest price point.
WORKS HARD SO YOU DON’T HAVE TO.
Tough, durable, a real workhorse. The draft is shallow enough to keep you to the open water when you’re after speckled trout or to the back of the bay for some action. But because it’s a Sweater, it’ll stand up to whatever the day brings.

F301B SWEATER SX-200

Skater seats are designed to withstand years of use and still look as good as the day they were made. Our premium quality upholstery offers superior all-weather resistance. UV resistance for up to 10000 hours, mildew resistance, fire retardant, and can withstand salt cracking to -50°F. We also use premium quality thread which will resist cotton/polyester threads, and is resistant to rot and decay and is guaranteed to last the lifetime of the upholstery.
BUILD MY SKEETER
Visit SkeeterBoats.com today and create the boat of your dreams.

IT HAS A STYLE ALL OF YOUR OWN
You start with the hull. Flakes or gel? Seal or rack your truck or component? What about the deck? Membrane or ribbon lamination? Bring it all together. It would be easy to decide...if you could visualize what your boat will look like up to ten years from now.

Now you can. With Skeeter's interactive boat building software the only limit is your imagination. Make your selections, print out a color mockup. Hang it up. Let your family weigh in and do it again. You get the idea. Select your “Build my Skeeter” at SkeeterDekorator.com. It’s fun and always customizeable at your own risk.

PERFORMANCE FLAKES
A synthetic polyurethane that resists migration through the clear gelcoat topcoat and provides a long-lasting, smooth finish.

PERFORMANCE GELS
Extra-tough, air-drying gel coat that is considered the best in the industry.

PERFORMANCE UPHOLSTERY
Heavyweight, marine-grade vinyl that is flame retardant, abrasion-resistant, and UV stabilized.

WHEN IT COMES TO SALTWATER FISHING SKEETER GUIDES HAVE THE RIGHT STUFF.

The people who make a living on the water are some of our most loyal customers. Guides like Skeeter boats because of the versatility. These customers go from taking fishinguentes high-speed to the shallow waters by flipping and swapping all parts. And the features---those eradication in the cockpit. "If you’re fishing in the morning, a nice marine audio and a 5.8-inch color GPS will help you navigate the huge waterways. If you’re fishing in the afternoon, a quick flip of a switch will turn the whole cockpit into a friggin’ superfisher. And with the flip of a switch, all the components are turned off and you have a boat for fishing again. This is the boat for fishing, and you can hook it up to a trailer or use it as a trailer. It's a really nice boat. I really like it." Skeeter boats are built for fishing, but they're also built for fun. They're built for adventure, and they're built for comfort. They're built for the people who live on the water. They're built for the people who love the water. They're built for the people who live by the water. They're built for the people who love the outdoors. They're built for the people who love the adventure. They're built for the people who love the challenge. They're built for the people who love the fun. They're built for the people who love the water. They're built for the people who love the outdoors.
